

**UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549**

Form 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934  
For the quarterly period ended June 30, 2020

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934  
For the transition period from \_\_\_\_\_ to \_\_\_\_\_.

Commission File Number 001-31303

**Black Hills Corporation**

Incorporated in South Dakota IRS Identification Number 46-0458824

7001 Mount Rushmore Road  
Rapid City, South Dakota 57702  
Registrant's telephone number (605) 721-1700

Former name, former address, and former fiscal year if changed since last report  
NONE

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the Registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the Registrant was required to submit such files). Yes  No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer	x	Accelerated Filer	<input type="checkbox"/>
Non-accelerated Filer	<input type="checkbox"/>	Smaller Reporting Company	<input type="checkbox"/>
		Emerging Growth Company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the Registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common stock of \$1.00 par value	BKH	New York Stock Exchange

Indicate the number of shares outstanding of each of the issuer's classes of common stock as of the latest practicable date.

Class	Outstanding at July 31, 2020
Common stock, \$1.00 par value	62,745,335 shares

## GLOSSARY OF TERMS AND ABBREVIATIONS

The following terms and abbreviations appear in the text of this report and have the definitions described below:

AFUDC	Allowance for Funds Used During Construction
AOI	Accumulated Other Comprehensive Income (Loss)
Arkansas Gas	Black Hills Energy Arkansas, Inc., a direct, wholly-owned subsidiary of Black Hills Utility Holdings, providing natural gas services to customers in Arkansas (doing business as Black Hills Energy).
ASC	Accounting Standards Codification
ASU	Accounting Standards Update issued by the FASB
ATM	At-the-market equity offering program
Availability	The availability factor of a power plant is the percentage of the time that it is available to provide energy.
BHC	Black Hills Corporation; the Company
Black Hills Colorado IPP	Black Hills Colorado IPP, LLC a 50.1% owned subsidiary of Black Hills Electric Generation
Black Hills Electric Generation	Black Hills Electric Generation, LLC, a direct, wholly-owned subsidiary of Black Hills Non-regulated Holdings, providing wholesale electric capacity and energy primarily to our affiliate utilities.
Black Hills Energy	The name used to conduct the business of our utility companies
Black Hills Energy Services	Black Hills Energy Services Company, an indirect, wholly-owned subsidiary of Black Hills Utility Holdings, providing natural gas commodity supply for the Choice Gas Programs (doing business as Black Hills Energy).
Black Hills Non-regulated Holdings	Black Hills Non-regulated Holdings, LLC, a direct, wholly-owned subsidiary of Black Hills Corporation
Black Hills Power	Black Hills Power, Inc., a direct, wholly-owned subsidiary of Black Hills Corporation (doing business as Black Hills Energy). Also known as South Dakota Electric.
Black Hills Utility Holdings	Black Hills Utility Holdings, Inc., a direct, wholly-owned subsidiary of Black Hills Corporation (doing business as Black Hills Energy)
Black Hills Wyoming	Black Hills Wyoming, LLC, a direct, wholly-owned subsidiary of Black Hills Electric Generation
CARES Act	Coronavirus Aid, Relief, and Economic Security Act, signed on March 27, 2020, which is a tax and spending package intended to provide additional economic relief and address the impact of the COVID-19 pandemic.
Cheyenne Light	Cheyenne Light, Fuel and Power Company, a direct, wholly-owned subsidiary of Black Hills Corporation, providing electric service in the Cheyenne, Wyoming area (doing business as Black Hills Energy). Also known as Wyoming Electric.
Choice Gas Program	Regulator-approved programs in Wyoming and Nebraska that allow certain utility customers to select their natural gas commodity supplier, providing for the unbundling of the commodity service from the distribution delivery service.
City of Colorado Springs	Colorado Springs, Colorado
City of Gillette	Gillette, Wyoming
Colorado Electric	Black Hills Colorado Electric, LLC, a direct, wholly-owned subsidiary of Black Hills Utility Holdings, providing electric service to customers in Colorado (doing business as Black Hills Energy).
Colorado Gas	Black Hills Colorado Gas, Inc., an indirect, wholly-owned subsidiary of Black Hills Utility Holdings, providing natural gas services to customers in Colorado (doing business as Black Hills Energy).
Consolidated Indebtedness to Capitalization Ratio	Any indebtedness outstanding at such time, divided by capital at such time. Capital being consolidated net worth (excluding noncontrolling interest) plus consolidated indebtedness (including letters of credit and certain guarantees issued) as defined within the current Revolving Credit Facility.
Cooling Degree Day (CDD)	A cooling degree day is equivalent to each degree that the average of the high and low temperatures for a day is above 65 degrees. The warmer the climate, the greater the number of cooling degree days. Cooling degree days are used in the utility industry to measure the relative warmth and to compare relative temperatures between one geographic area and another. Normal degree days are based on the National Weather Service data for selected locations.
Corriedale	Wind project near Cheyenne, Wyoming, that will be a 52.5 MW wind farm jointly owned by South Dakota Electric and Wyoming Electric and will serve as the dedicated wind energy supply to the Renewable Ready program.

COVID-19	The official name for the 2019 novel coronavirus disease announced on February 11, 2020, by the World Health Organization, that is causing a global pandemic
CP Program	Commercial Paper Program
CPUC	Colorado Public Utilities Commission
CVA	Credit Valuation Adjustment
Dodd-Frank	Dodd-Frank Wall Street Reform and Consumer Protection Act
DRSPP	Dividend Reinvestment and Stock Purchase Plan
Dth	Dekatherm. A unit of energy equal to 10 therms or approximately one million British thermal units (MMBtu)
FASB	Financial Accounting Standards Board
FERC	United States Federal Energy Regulatory Commission
Fitch	Fitch Ratings Inc.
GAAP	Accounting principles generally accepted in the United States of America
Heating Degree Day (HDD)	A heating degree day is equivalent to each degree that the average of the high and the low temperatures for a day is below 65 degrees. The colder the climate, the greater the number of heating degree days. Heating degree days are used in the utility industry to measure the relative coldness and to compare relative temperatures between one geographic area and another. Normal degree days are based on the National Weather Service data for selected locations.
HomeServe	Repair service plans offered to electric and natural gas residential customers that cover parts and labor to repair electrical, gas, heating, cooling, and water systems.
ICFR	Internal Controls over Financial Reporting
Iowa Gas	Black Hills Iowa Gas Utility Company, LLC, a direct, wholly-owned subsidiary of Black Hills Utility Holdings, providing natural gas services to customers in Iowa (doing business as Black Hills Energy).
IPP	Independent power producer
IRS	United States Internal Revenue Service
Kansas Gas	Black Hills Kansas Gas Utility Company, LLC, a direct, wholly-owned subsidiary of Black Hills Utility Holdings, providing natural gas services to customers in Kansas (doing business as Black Hills Energy)
MMBtu	Million British thermal units
Moody's	Moody's Investors Service, Inc.
MW	Megawatts
MWh	Megawatt-hours
Nebraska Gas	Black Hills Nebraska Gas, LLC, an indirect, wholly-owned subsidiary of Black Hills Utility Holdings, providing natural gas services to customers in Nebraska (doing business as Black Hills Energy)
NPSC	Nebraska Public Service Commission
OCA	Office of Consumer Advocate
OCI	Other Comprehensive Income
PPA	Power Purchase Agreement
PRPA	Platte River Power Authority
PSA	Power Sales Agreement
Pueblo Airport Generation	420 MW combined cycle gas-fired power generation plants jointly owned by Colorado Electric (220 MW) and Black Hills Colorado IPP (200 MW). Black Hills Colorado IPP owns and operates this facility. The plants commenced operation on January 1, 2012.
Renewable Advantage	A 200 MW solar facility project to be constructed in Pueblo County, Colorado. The project aims to lower customer energy costs and provide economic and environmental benefits to Colorado Electric's customers and communities. If approved by the CPUC, the project would be owned by a third-party renewable energy developer with Colorado Electric purchasing all of the energy generated at the facility under the terms of a 15-year PPA. The project would be placed in service in 2023.
Renewable Ready	Voluntary renewable energy subscription program for large commercial, industrial and governmental agency customers in South Dakota and Wyoming.
Revolving Credit Facility	Our \$750 million credit facility used to fund working capital needs, letters of credit and other corporate purposes, which was amended and restated on July 30, 2018, and now terminates on July 30, 2023.

SDPUC	South Dakota Public Utilities Commission
SEC	United States Securities and Exchange Commission
Service Guard Comfort Plan	New plan that will consolidate Service Guard and Customer Appliance Protection Plan (CAPP) and provide similar home appliance repair services through on-going monthly service agreements to residential utility customers.
S&P	Standard and Poor's, a division of The McGraw-Hill Companies, Inc.
South Dakota Electric	Black Hills Power, Inc., a direct, wholly-owned subsidiary of Black Hills Corporation, providing electric service to customers in Montana, South Dakota and Wyoming (doing business as Black Hills Energy).
SSIR	System Safety and Integrity Rider
TCJA	Tax Cuts and Jobs Act
Tech Services	Non-regulated product lines within Black Hills Corporation that 1) provide electrical system construction services to large industrial customers of our electric utilities and 2) serve gas transportation customers throughout its service territory by constructing and maintaining customer-owner gas infrastructure facilities, typically through one-time contracts.
Utilities	Black Hills' Electric and Gas Utilities
Wind Capacity Factor	Measures the amount of electricity a wind turbine produces in a given time period relative to its maximum potential
WPSC	Wyoming Public Service Commission
WRDC	Wyodak Resources Development Corporation, a direct, wholly-owned subsidiary of Black Hills Non-regulated Holdings (doing business as Black Hills Energy)
Wygen I	A mine-mouth, coal-fired power plant with a total capacity of 90 MW located at our Gillette, Wyoming energy complex. We own 76.5% of the plant and Municipal Energy Agency of Nebraska (MEAN) owns the remaining 23.5%.
Wyodak Plant	Wyodak, a 362 MW mine-mouth coal-fired plant in Gillette, Wyoming, owned 80% by PacifiCorp and 20% by South Dakota Electric. Our WRDC mine supplies all of the fuel for the plant.
Wyoming Electric	Cheyenne Light, Fuel and Power Company, a direct, wholly-owned subsidiary of Black Hills Corporation, providing electric service to customers in the Cheyenne, Wyoming area (doing business as Black Hills Energy).
Wyoming Gas	Black Hills Wyoming Gas, LLC, an indirect and wholly-owned subsidiary of Black Hills Utility Holdings, providing natural gas services to customers in Wyoming (doing business as Black Hills Energy).

**BLACK HILLS CORPORATION**Notes to Condensed Consolidated Financial Statements  
(unaudited)

(Reference is made to Notes to Consolidated Financial Statements included in the Company's 2019 Annual Report on Form 10-K)

**(1) Management's Statement**

The unaudited Condensed Consolidated Financial Statements included herein have been prepared by Black Hills Corporation (together with our subsidiaries the "Company", "us", "we" or "our"), pursuant to the rules and regulations of the SEC. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations; however, we believe that the footnotes adequately disclose the information presented. These Condensed Consolidated Financial Statements should be read in conjunction with the consolidated financial statements and the notes included in our 2019 Annual Report on Form 10-K filed with the SEC.

**Segment Reporting**

We conduct our operations through the following reportable segments: Electric Utilities, Gas Utilities, Power Generation and Mining. Our reportable segments are based on our method of internal reporting, which is generally segregated by differences in products, services and regulation. All of our operations and assets are located within the United States.

**Use of Estimates and Basis of Presentation**

The information furnished in the accompanying Condensed Consolidated Financial Statements reflects certain estimates required and all adjustments, including accruals, which are, in the opinion of management, necessary for a fair presentation of the June 30, 2020, December 31, 2019 and June 30, 2019 financial information. Certain industries in which we operate are highly seasonal and revenue from, and certain expenses for, such operations may fluctuate significantly among quarterly periods. Demand for electricity and natural gas is sensitive to seasonal cooling, heating and industrial load requirements. In particular, the normal peak usage season for electric utilities is June through August while the normal peak usage season for gas utilities is November through March. Significant earnings variances can be expected between the Gas Utilities segment's peak and off-peak seasons. Due to this seasonal nature, our results of operations for the three and six months ended June 30, 2020 and June 30, 2019, and our financial condition as of June 30, 2020 and December 31, 2019 are not necessarily indicative of the results of operations and financial condition to be expected for any other period. All earnings per share amounts discussed refer to diluted earnings per share unless otherwise noted.

**Reclassification**

We changed certain classifications of operating expenses on the Condensed Consolidated Statements of Income for the three and six months ended June 30, 2019 to conform with current year presentation. The prior year reclassifications, which are shown in the table below, did not impact previously reported operating income or net income.

	Three Months Ended June 30, 2019	Six Months Ended June 30, 2019
	(in millions)	
Fuel, purchased power and cost of natural gas sold	\$ 0.4	\$ 1.3
Operations and maintenance	—	(0.3)
Taxes - property and production	—	(0.2)
Other operating expenses	(0.4)	(0.8)
	<u>\$ —</u>	<u>\$ —</u>

## COVID-19 Pandemic

In March 2020, the World Health Organization categorized COVID-19 as a pandemic and the President of the United States declared the outbreak a national emergency. The U.S. government has deemed electric and natural gas utilities to be critical infrastructure sectors that provide essential services during this emergency. As a provider of essential services, the Company has an obligation to provide services to our customers. The Company remains focused on protecting the health of its employees and the communities in which it operates while assuring the continuity of its business operations.

The Company's Condensed Consolidated Financial Statements reflect estimates and assumptions made by management that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Condensed Consolidated Financial Statements and reported amounts of revenue and expenses during the reporting periods presented. The Company considered the impacts of COVID-19 on the assumptions and estimates used and determined that for the three and six months ended June 30, 2020, there were no material adverse impacts on the Company's results of operations.

## Change in Accounting Principle - Pension Accounting Asset Method

Effective January 1, 2020, we changed our method of accounting for net periodic benefit cost. Prior to the change, the Company used a calculated value for determining market-related value of plan assets which amortized the effects of gains and losses over a five-year period. Effective with the accounting change, the Company will use a calculated value for the return-seeking assets (equities) in the portfolio and change to fair value for the liability-hedging assets (fixed income). See [Note 12](#) for additional information.

## Recently Issued Accounting Standards

### [Simplifying the Accounting for Income Taxes, ASU 2019-12](#)

In December 2019, the FASB issued ASU 2019-12, *Simplifying the Accounting for Income Taxes*, as part of its overall simplification initiative to reduce costs and complexity in applying accounting standards while maintaining or improving the usefulness of the information provided to users of the financial statements. Amendments include removal of certain exceptions to the general principles of ASC 740, *Income Taxes*, and simplification in several other areas such as accounting for a franchise tax (or similar tax) that is partially based on income. The new guidance is effective for interim and annual periods beginning after December 15, 2020 with early adoption permitted. We are currently reviewing this standard to assess the impact on our financial position, results of operations and cash flows.

## Recently Adopted Accounting Standards

### [Financial Instruments -- Credit Losses: Measurement of Credit Losses on Financial Instruments, ASU 2016-13](#)

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments -- Credit Losses: Measurement of Credit Losses on Financial Instruments*, which was subsequently amended by ASUs 2018-19, 2019-04, 2019-05, 2019-10, and 2019-11. The standard introduces new accounting guidance for credit losses on financial instruments within its scope, including trade receivables. This new guidance adds an impairment model that is based on expected losses rather than incurred losses.

We adopted this standard on January 1, 2020 with prior year comparative financial information remaining as previously reported when transitioning to the new standard. On January 1, 2020, we recorded an increase to our allowance for credit losses, primarily associated with the inclusion of expected losses on unbilled revenue. The cumulative effect of the adoption, net of tax impact, was \$0.2 million, which was recorded as an adjustment to retained earnings.

### [Simplifying the Test for Goodwill Impairment, ASU 2017-04](#)

In January 2017, the FASB issued ASU 2017-04, *Simplifying the Test for Goodwill Impairment*, by eliminating step 2 from the goodwill impairment test. Under the new guidance, if the carrying amount of a reporting unit exceeds its fair value, an impairment loss will be recognized in an amount equal to that excess, limited to the amount of goodwill allocated to that reporting unit. We adopted this standard prospectively on January 1, 2020. Adoption of this guidance, in conjunction with the annual goodwill impairment test as of October 1, 2020, is not expected to have an impact on our financial position, results of operations or cash flows.

Internal-Use Software: Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract, ASU 2018-15

In August 2018, the FASB issued ASU 2018-15, *Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract*, which aligns the requirements for recording implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. As a result, certain categories of implementation costs that previously would have been charged to expense as incurred are now capitalized as prepayments and amortized over the term of the arrangement. We adopted this standard prospectively on January 1, 2020. Adoption of this guidance did not have a material impact on our financial position, results of operations or cash flows.

**(2) Revenue**

Our revenue contracts generally provide for performance obligations that: are fulfilled and transfer control to customers over time; represent a series of distinct services that are substantially the same; involve the same pattern of transfer to the customer; and provide a right to consideration from our customers in an amount that corresponds directly with the value to the customer for the performance completed to date. Therefore, we recognize revenue in the amount to which we have a right to invoice. The following tables depict the disaggregation of revenue, including intercompany revenue, from contracts with customers by customer type and timing of revenue recognition for each of the reporting segments for the three and six months ended June 30, 2020 and 2019. Sales tax and other similar taxes are excluded from revenues.

**Contract Balances**

The nature of our primary revenue contracts provides an unconditional right to consideration upon service delivery; therefore, no customer contract assets or liabilities exist. The unconditional right to consideration is represented by the balance in our Accounts Receivable further discussed in [Note 4](#).

**(3) Business Segment Information**

Our reportable segments are based on our method of internal reporting, which is generally segregated by differences in products, services and regulation. All of our operations and assets are located within the United States.

Net income attributable to noncontrolling interest	(3,728)	(3,110)	(7,778)	(6,664)
Net income available for common stock	\$ 20,966	\$ 14,583	\$ 114,140	\$ 118,391

(a) Adjusted operating income recognizes intersegment revenues and costs for Colorado Electric's PPA with Black Hills Colorado IPP on an accrual basis rather than as a finance lease. This presentation of segment information does not impact consolidated financial results.

Segment and Corporate and Other balances included in the accompanying Condensed Consolidated Balance Sheets were as follows (in thousands):

Total assets (net of inter-company eliminations) as of:	June 30, 2020	December 31, 2019
Segment:		
Electric Utilities	\$ 2,982,841	\$ 2,900,983
Gas Utilities	4,052,860	4,032,339
Power Generation	407,107	417,715
Mining	79,774	77,175
Corporate and Other	167,350	130,245
Total assets	\$ 7,689,932	\$ 7,558,457

#### (4) Selected Balance Sheet Information

##### Accounts Receivable and Allowance for Credit Losses

Following is a summary of Accounts receivable, net included in the accompanying Condensed Consolidated Balance Sheets (in thousands) as of:

	June 30, 2020	December 31, 2019
Accounts receivable, trade	\$ 122,650	\$ 144,747
Unbilled revenue	55,915	113,502
Less: Allowance for credit losses	(7,585)	(2,444)
Accounts receivable, net	\$ 170,980	\$ 255,805

Changes to allowance for credit losses for the six months ended June 30, 2020 and 2019, respectively, were as follows (in thousands):

	Balance at Beginning of Year	Additions Charged to Costs and Expenses	Recoveries and Other Additions	Write-offs and Other Deductions	Balance at June 30,
2020	\$ 2,444	\$ 6,715	\$ 2,203	\$ (3,777)	\$ 7,585
2019	\$ 3,209	\$ 4,913	\$ 1,870	\$ (4,906)	\$ 5,086

Due to the COVID-19 pandemic, all of our jurisdictions temporarily suspended disconnections for a period of time, which increased our accounts receivable arrears balances. As a result, we increased our allowance for credit losses and bad debt expense for the six months ended June 30, 2020 by \$2.0 million.

The ongoing credit evaluation of our customers during the COVID-19 pandemic is further discussed in the Credit Risk section of [Note 9](#).

#### Materials, Supplies and Fuel

The following amounts by major classification are included in Materials, supplies and fuel on the accompanying Condensed Consolidated Balance Sheets (in thousands) as of:

	June 30, 2020	December 31, 2019
Materials and supplies	\$ 92,284	\$ 82,809
Fuel - Electric Utilities	3,574	2,425
Natural gas in storage	10,129	31,938
Total materials, supplies and fuel	\$ 105,987	\$ 117,172

#### Accrued Liabilities

The following amounts by major classification are included in Accrued liabilities on the accompanying Condensed Consolidated Balance Sheets (in thousands) as of:

	June 30, 2020	December 31, 2019
Accrued employee compensation, benefits and withholdings	\$ 59,701	\$ 62,837
Accrued property taxes	36,832	44,547
Customer deposits and prepayments	45,143	54,728
Accrued interest	31,757	31,868
Other (none of which is individually significant)	28,234	32,787
Total accrued liabilities	\$ 201,667	\$ 226,767

**(5) Regulatory Matters**

We had the following regulatory assets and liabilities (in thousands) as of:

	June 30, 2020	December 31, 2019
<b>Regulatory assets</b>		
Deferred energy and fuel cost adjustments <sup>(a)</sup>	\$ 36,900	\$ 34,088
Deferred gas cost adjustments <sup>(a)</sup>	226	1,540
Gas price derivatives <sup>(a)</sup>	662	3,328
Deferred taxes on AFUDC <sup>(b)</sup>	7,715	7,790
Employee benefit plans <sup>(c)</sup>	115,416	115,900
Environmental <sup>(a)</sup>	1,426	1,454
Loss on reacquired debt <sup>(a)</sup>	23,820	24,777
Renewable energy standard adjustment <sup>(a)</sup>	1	1,622
Deferred taxes on flow through accounting <sup>(c)</sup>	44,940	41,220
Decommissioning costs <sup>(b)</sup>	9,854	10,670
Gas supply contract termination <sup>(a)</sup>	5,521	8,485
Other regulatory assets <sup>(a)</sup>	25,831	20,470
<b>Total regulatory assets</b>	<b>272,312</b>	<b>271,344</b>
Less current regulatory assets	(51,745)	(43,282)
<b>Regulatory assets, non-current</b>	<b>\$ 220,567</b>	<b>\$ 228,062</b>
<b>Regulatory liabilities</b>		
Deferred energy and gas costs <sup>(a)</sup>	\$ 28,279	\$ 17,278
Employee benefit plan costs and related deferred taxes <sup>(c)</sup>	41,025	43,349
Cost of removal <sup>(a)</sup>	168,137	166,727
Excess deferred income taxes <sup>(c)</sup>	288,796	285,438
TCJA revenue reserve	3,027	3,418
Other regulatory liabilities <sup>(c)</sup>	36,557	20,442
<b>Total regulatory liabilities</b>	<b>565,821</b>	<b>536,652</b>
Less current regulatory liabilities	(59,428)	(33,507)
<b>Regulatory liabilities, non-current</b>	<b>\$ 506,393</b>	<b>\$ 503,145</b>

(a) Recovery of costs, but we are not allowed a rate of return.

(b) In addition to recovery of costs, we are allowed a rate of return.

(c) In addition to recovery or repayment of costs, we are allowed a return on a portion of this amount or a reduction in rate base.

## **Regulatory Activity**

Except as discussed below, there have been no other significant changes to our Regulatory Matters from those previously disclosed in Note 13 of the Notes to the Consolidated Financial Statements in our 2019 Annual Report on Form 10-K.

### Nebraska Gas

#### *Jurisdictional Consolidation and Rate Review*

On June 1, 2020, Nebraska Gas filed a rate review with the NPSC to consolidate rates, tariffs, and services of its two existing gas distribution territories. The rate review requests \$17 million in new revenue, as well as renewal and expansion of the SSIR, to recover investments in safety, reliability and system integrity. The rate review requests a capital structure of 50% equity and 50% debt and a return on equity of 10% for investments Nebraska Gas made in its natural gas pipeline system. Nebraska statute allows for implementation of interim rates 90 days after filing a rate review. New rates are expected to be effective in early 2021.

### Black Hills Wyoming and Wyoming Electric

#### *Wygen I FERC Filing*

On June 1, 2020, Black Hills Wyoming and Wyoming Electric filed a settlement agreement with the FERC. The agreement represents a resolution of all issues in the joint application filed with the FERC on August 2, 2019 for approval of a new 60 MW PPA. On July 10, 2020, a judge certified the settlement to the FERC and a decision is expected by the end of 2020. If approved, Wyoming Electric will continue to receive 60 MW of capacity and energy from the Wygen I power plant. The new agreement would commence on January 1, 2022, replacing the existing PPA, and would continue for 11 years.

### Colorado Gas

#### *Jurisdictional Consolidation and Rate Review*

On February 1, 2019, Colorado Gas filed a rate review with the CPUC requesting \$2.5 million in new revenue to recover investments in safety, reliability and system integrity and approval to consolidate rates, tariffs, and services of its two existing gas distribution territories. Colorado Gas also requested a new rider mechanism to recover future safety and integrity investments in its system. On April 14, 2020 the CPUC deliberated on the application and on May 19, 2020 issued a final order. The order denied the system integrity recovery mechanism and consolidation of rate territories. In addition, the order resulted in an annual revenue decrease of \$0.6 million and a return on equity of 9.2%. New rates were effective July 3, 2020. In accordance with the final order, Colorado Gas will file a new system integrity rider proposal prior to the end of 2020. Colorado Gas also plans to file a new rate review by the end of 2020.

## (6) Earnings Per Share

A reconciliation of share amounts used to compute earnings per share in the accompanying Condensed Consolidated Statements of Income was as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2020	2019	2020	2019
Net income available for common stock	\$ 20,966	\$ 14,583	\$ 114,140	\$ 118,391
Weighted average shares - basic	62,573	60,467	62,175	60,195
Dilutive effect of:				
Equity compensation	44	139	55	138
Weighted average shares - diluted	62,617	60,606	62,230	60,333
Earnings per share of common stock:				
Earnings per share, Basic	\$ 0.34	\$ 0.24	\$ 1.84	\$ 1.97
Earnings per share, Diluted	\$ 0.33	\$ 0.24	\$ 1.83	\$ 1.96

The following securities were excluded from the diluted earnings per share computation because of their anti-dilutive nature (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2020	2019	2020	2019
Equity compensation	29	—	26	—
Restricted stock	76	—	36	—
Anti-dilutive shares	105	—	62	—

## (7) Notes Payable, Current Maturities and Debt

We had the following short-term debt outstanding in the accompanying Condensed Consolidated Balance Sheets (in thousands) as of:

	June 30, 2020		December 31, 2019	
	Balance Outstanding	Letters of Credit <sup>(a)</sup>	Balance Outstanding	Letters of Credit <sup>(a)</sup>
Revolving Credit Facility	\$ —	\$ 11,999	\$ —	\$ 30,274
CP Program	—	—	349,500	—
Total	\$ —	\$ 11,999	\$ 349,500	\$ 30,274

(a) Letters of credit are off-balance sheet commitments that reduce the borrowing capacity available on our corporate Revolving Credit Facility.

For the six months ended June 30, 2020, we utilized a combination of our \$750 million Revolving Credit Facility and CP Program to meet our business needs and support our capital investment plan. Our net short-term borrowings (payments) during the six months ended June 30, 2020 were \$(350) million.

## Debt Covenants

Under our Revolving Credit Facility and term loan agreement, we are required to maintain a Consolidated Indebtedness to Capitalization Ratio not to exceed 0.65 to 1.00. Our Consolidated Indebtedness to Capitalization Ratio was calculated by dividing (i) consolidated indebtedness, which includes letters of credit and certain guarantees issued, by (ii) capital, which includes consolidated indebtedness plus consolidated net worth, which excludes noncontrolling interest in subsidiaries. Subject to applicable cure periods, a violation of any of these covenants would constitute an event of default that entitles the lenders to terminate their remaining commitments and accelerate all principal and interest outstanding.

Our Revolving Credit Facility and term loans require compliance with the following financial covenant, which we were in compliance with at June 30, 2020:

	As of June 30, 2020	Covenant Requirement	
Consolidated Indebtedness to Capitalization Ratio	58.7%	Less than	65%

## Debt Offering

On June 17, 2020, we completed a public debt offering which consisted of \$400 million of 2.50% 10-year senior unsecured notes due June 15, 2030. The proceeds were used to repay short-term debt and for working capital and general corporate purposes.

## South Dakota Electric Series 94A Debt

On March 24, 2020, South Dakota Electric paid off its \$2.9 million, Series 94A variable rate notes due June 1, 2024. These notes were tendered by the sole investor on March 17, 2020.

## **(8) Equity**

### February 2020 Equity Issuance

On February 27, 2020, we issued 1.2 million shares of common stock to a single investor through an underwritten registered transaction at a price of \$81.77 per share for proceeds of \$99 million, net of \$1.0 million of issuance costs. The shares of common stock were offered pursuant to our shelf registration statement filed with the SEC.

### Shelf Registration, DRSP and ATM Activity

On August 3, 2020, we filed a shelf registration and DRSP with the SEC. In conjunction with these shelf filings, we renewed the ATM. The renewed ATM program, which allows us to sell shares of our common stock, is the same as the prior program other than the aggregate value increased from \$300 million to \$400 million and a forward sales option was incorporated. Under the ATM, shares may be offered from time to time pursuant to a sales agreement dated August 3, 2020. Shares of common stock are offered pursuant to our shelf registration statement filed with the SEC.

We did not issue any common shares under the ATM during the three and six months ended June 30, 2020. During the three months ended June 30, 2019, we issued a total of 0.7 million shares of common stock under the ATM for proceeds of \$49 million, net of \$0.5 million in issuance costs. During the six months ended June 30, 2019, we issued a total of 0.9 million shares of common stock under the ATM for proceeds of \$69 million, net of \$0.7 million in issuance costs.

## **(9) Risk Management and Derivatives**

### **Market and Credit Risk Disclosures**

Our activities in the regulated and non-regulated energy sectors expose us to a number of risks in the normal operations of our businesses. Depending on the activity, we are exposed to varying degrees of market risk and credit risk.

#### Market Risk

Market risk is the potential loss that may occur as a result of an adverse change in market price, rate or supply. We are exposed to the following market risks, including, but not limited to:

- Commodity price risk associated with our retail natural gas, wholesale electric power marketing activities and our fuel procurement for several of our gas-fired generation assets which include market fluctuations due to unpredictable factors such as the COVID-19 pandemic, weather, market speculation, pipeline constraints, and other factors that may impact natural gas and electric energy supply and demand;
- Interest rate risk associated with future debt, including reduced access to liquidity during periods of extreme capital markets volatility, such as the 2008 financial crisis and the COVID-19 pandemic;

#### Credit Risk

Credit risk is the risk of financial loss resulting from non-performance of contractual obligations by a counterparty.

For production and generation activities, we attempt to mitigate our credit exposure by conducting business primarily with high credit quality entities, setting tenor and credit limits commensurate with counterparty financial strength, obtaining master netting agreements, and mitigating credit exposure with less creditworthy counterparties through parental guarantees, cash collateral requirements, letters of credit, and other security agreements.

We perform ongoing credit evaluations of our customers and adjust credit limits based on payment history and the customers' current creditworthiness, as determined by review of their current credit information. We maintain a provision for estimated credit losses based upon historical experience, changes in current market conditions, expected losses and any specific customer collection issue that is identified.

We continue to monitor COVID-19 impacts and changes to customer load, consistency in customer payments, requests for deferred or discounted payments, and requests for changes to credit limits to quantify estimated future financial impacts to the allowance for credit losses. During the three and six months ended June 30, 2020, the potential economic impact of the COVID-19 pandemic was considered in forward looking projections related to write-off and recovery rates, and resulted in increases to the allowance for credit losses and bad debt expense of \$1.5 million and \$2.0 million, respectively. See [Note 4](#) for further information.

### **Derivatives and Hedging Activity**

Our derivative and hedging activities included in the accompanying Condensed Consolidated Balance Sheets, Condensed Consolidated Statements of Income and Condensed Consolidated Statements of Comprehensive Income are detailed below and in [Note 10](#).

#### Utilities

The operations of our utilities, including natural gas used by our Electric Utilities' generation plants or those plants under PPAs where our Electric Utilities must provide the generation fuel (tolling agreements) and natural gas sold by our Gas Utilities, expose our utility customers to volatility in natural gas prices. Therefore, as allowed or required by state utility commissions, we have entered into commission-approved hedging programs utilizing natural gas futures, options, over-the-counter swaps and basis swaps to reduce our customers' underlying exposure to these fluctuations. These transactions are considered derivatives, and in accordance with accounting standards for derivatives and hedging, mark-to-market adjustments are recorded as Derivative assets or Derivative liabilities on the accompanying Condensed Consolidated Balance Sheets, net of balance sheet offsetting as permitted by GAAP.

For our regulated Utilities' hedging plans, unrealized and realized gains and losses, as well as option premiums and commissions on these transactions, are recorded as Regulatory assets or Regulatory liabilities in the accompanying Condensed Consolidated Balance Sheets in accordance with the state utility commission guidelines. When the related costs are recovered through our rates, the hedging activity is recognized in the Condensed Consolidated Statements of Income.

We buy, sell and deliver natural gas at competitive prices by managing commodity price risk. As a result of these activities, this area of our business is exposed to risks associated with changes in the market price of natural gas. We manage our exposure to such risk using over-the-counter and exchange traded options and swaps with counterparties in anticipation of forecasted purchases and/or sales from July 2020 through May 2022. A portion of our over-the-counter swaps have been designated as cash flow hedges to mitigate the commodity price risk associated with deliveries under fixed price forward contracts to deliver gas to our Choice Gas Program customers. The effective portion of the gain or loss on these designated derivatives is reported in AOCI in the accompanying Condensed Consolidated Balance Sheets and the ineffective portion, if any, is reported in Fuel, purchased power and cost of natural gas sold. Effectiveness of our hedging position is evaluated at least quarterly.

The contract or notional amounts and terms of the electric and natural gas derivative commodity instruments held at our Utilities are composed of both long and short positions. We had the following net long positions as of:

	June 30, 2020			December 31, 2019	
	Units	Notional Amounts	Maximum Term (months) <sup>(a)</sup>	Notional Amounts	Maximum Term (months) <sup>(a)</sup>
Natural gas futures purchased	MMBtus	660,000	9	1,450,000	12
Natural gas options purchased, net	MMBtus	950,000	9	3,240,000	3
Natural gas basis swaps purchased	MMBtus	520,000	6	1,290,000	12
Natural gas over-the-counter swaps, net <sup>(b)</sup>	MMBtus	6,480,000	23	4,600,000	24
Natural gas physical contracts, net <sup>(c)</sup>	MMBtus	8,085,376	9	13,548,235	12
Electric wholesale contracts <sup>(c)</sup>	MWh	141,225	6	—	0

(a) Term reflects the maximum forward period hedged.

(b) As of June 30, 2020, 1,776,900 MMBtus of natural gas over-the-counter swaps purchases were designated as cash flow hedges.

(c) Volumes exclude contracts that qualify for the normal purchases and normal sales exception.

We have certain derivative contracts which contain credit provisions. These credit provisions may require the Company to post collateral when credit exposure to the Company is in excess of a negotiated line of unsecured credit. At June 30, 2020, the Company posted \$0.5 million related to such provisions, which is included in Other current assets on the Condensed Consolidated Balance Sheets.

#### Derivatives by Balance Sheet Classification

As required by accounting standards for derivatives and hedges, fair values within the following tables are presented on a gross basis aside from the netting of asset and liability positions. Netting of positions is permitted in accordance with accounting standards for offsetting and under terms of our master netting agreements that allow us to settle positive and negative positions.

The following table presents the fair value and balance sheet classification of our derivative instruments (in thousands) as of:

	Balance Sheet Location	June 30, 2020	December 31, 2019
Derivatives designated as hedges:			
Asset derivative instruments:			
Current commodity derivatives	Derivative assets, current	\$ 66	\$ 1
Noncurrent commodity derivatives	Other assets, non-current	83	3
Liability derivative instruments:			
Current commodity derivatives	Derivative liabilities, current	(324)	(490)
Noncurrent commodity derivatives	Other deferred credits and other liabilities	—	(29)
Total derivatives designated as hedges		\$ (175)	\$ (515)
Derivatives not designated as hedges:			
Asset derivative instruments:			
Current commodity derivatives	Derivative assets, current	\$ 1,515	\$ 341
Noncurrent commodity derivatives	Other assets, non-current	191	2
Liability derivative instruments:			
Current commodity derivatives	Derivative liabilities, current	(297)	(1,764)
Noncurrent commodity derivatives	Other deferred credits and other liabilities	(15)	(63)
Total derivatives not designated as hedges		\$ 1,394	\$ (1,484)

### Derivatives Designated as Hedges

The impacts of cash flow hedges on our Condensed Consolidated Statements of Comprehensive Income and Condensed Consolidated Statements of Income are presented below for the three and six months ended June 30, 2020 and 2019. Note that this presentation does not reflect gains or losses arising from the underlying physical transactions; therefore, it is not indicative of the economic profit or loss we realized when the underlying physical and financial transactions were settled.

Derivatives in Cash Flow Hedging Relationships	Three Months Ended June 30,		Income Statement Location	Three Months Ended June 30,	
	2020	2019		2020	2019
	Amount of (Gain)/Loss Recognized in OCI (in thousands)			Amount of Gain/(Loss) Reclassified from AOCI into Income (in thousands)	
Interest rate swaps	\$ 713	\$ 713	Interest expense	\$ (713)	\$ (713)
Commodity derivatives	11	(601)	Fuel, purchased power and cost of natural gas sold	(70)	83
Total	\$ 724	\$ 112		\$ (783)	\$ (630)
Derivatives in Cash Flow Hedging Relationships	Six Months Ended June 30,		Income Statement Location	Six Months Ended June 30,	
	2020	2019		2020	2019
	Amount of (Gain)/Loss Recognized in OCI (in thousands)			Amount of Gain/(Loss) Reclassified from AOCI into Income (in thousands)	
Interest rate swaps	\$ 1,426	\$ 1,426	Interest expense	\$ (1,426)	\$ (1,426)
Commodity derivatives	268	(921)	Fuel, purchased power and cost of natural gas sold	(556)	637
Total	\$ 1,694	\$ 505		\$ (1,982)	\$ (789)

Based on June 30, 2020 prices, a \$0.2 million gain would be realized, reported in pre-tax earnings and reclassified from AOCI during the next 12 months. As market prices fluctuate, estimated and actual realized gains or losses will change during future periods.

### Derivatives Not Designated as Hedges

The following table summarizes the impacts of derivative instruments not designated as hedge instruments on our Condensed Consolidated Statements of Income for the three and six months ended June 30, 2020 and 2019. Note that this presentation does not reflect gains or losses arising from the underlying physical transactions; therefore, it is not indicative of the economic profit or loss we realized when the underlying physical and financial transactions were settled.

Derivatives Not Designated as Hedging Instruments	Income Statement Location	Three Months Ended June 30,	
		2020	2019
		Amount of Gain/(Loss) on Derivatives Recognized in Income	
Commodity derivatives - Electric	Fuel, purchased power and cost of natural gas sold	\$ (204)	\$ —
Commodity derivatives - Natural Gas	Fuel, purchased power and cost of natural gas sold	449	(1,185)
		<u>\$ 245</u>	<u>\$ (1,185)</u>

  

Derivatives Not Designated as Hedging Instruments	Income Statement Location	Six Months Ended June 30,	
		2020	2019
		Amount of Gain/(Loss) on Derivatives Recognized in Income	
		(in thousands)	
Commodity derivatives - Electric	Fuel, purchased power and cost of natural gas sold	\$ 1,158	\$ —
Commodity derivatives - Natural Gas	Fuel, purchased power and cost of natural gas sold	1,215	(1,160)
		<u>\$ 2,373</u>	<u>\$ (1,160)</u>

As discussed above, financial instruments used in our regulated utilities are not designated as cash flow hedges. There is no earnings impact for our Gas Utilities because the unrealized gains and losses arising from the use of these financial instruments are recorded as Regulatory assets or Regulatory liabilities. The net unrealized losses included in our Regulatory asset or Regulatory liability accounts related to the hedges in our Gas Utilities were \$0.7 million and \$3.3 million as of June 30, 2020 and December 31, 2019, respectively. For our Electric Utilities, the unrealized gains and losses arising from these derivatives are recognized in the Condensed Consolidated Statements of Income.

### **(10) Fair Value Measurements**

We use the following fair value hierarchy for determining inputs for our financial instruments. Our assets and liabilities for financial instruments are classified and disclosed in one of the following fair value categories:

Level 1 — Unadjusted quoted prices available in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities. Level 1 instruments primarily consist of highly liquid and actively traded financial instruments with quoted pricing information on an ongoing basis;

Level 2 — Pricing inputs include quoted prices for identical or similar assets and liabilities in active markets other than quoted prices in Level 1, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means; and

Level 3 — Pricing inputs are generally less observable from objective sources. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the placement within the fair value hierarchy levels. We record transfers, if necessary, between levels at the end of the reporting period for all of our financial instruments.

Transfers into Level 3, if any, occur when significant inputs used to value the derivative instruments become less observable, such as a significant decrease in the frequency and volume in which the instrument is traded, negatively impacting the availability of observable pricing inputs. Transfers out of Level 3, if any, occur when the significant inputs become more observable, such as when the time between the valuation date and the delivery date of a transaction becomes shorter, positively impacting the availability of observable pricing inputs.

### Recurring Fair Value Measurements

#### *Derivatives*

The commodity contracts for our Utilities segments are valued using the market approach and include forward strip pricing at liquid delivery points, exchange-traded futures, options, basis swaps and over-the-counter swaps and options (Level 2) for wholesale electric energy and natural gas contracts. For exchange-traded futures, options and basis swap assets and liabilities, fair value was derived using broker quotes validated by the exchange settlement pricing for the applicable contract. For over-the-counter instruments, the fair value is obtained by utilizing a nationally recognized service that obtains observable inputs to compute the fair value, which we validate by comparing our valuation with the counterparty. The fair value of these swaps includes a CVA based on the credit spreads of the counterparties when we are in an unrealized gain position or on our own credit spread when we are in an unrealized loss position. For additional information, see Note 1 to the Consolidated Financial Statements included in our 2019 Annual Report on Form 10-K filed with the SEC.

<b>Total</b>	<b>\$ —</b>	<b>\$ 5,254</b>	<b>\$ —</b>	<b>\$ (2,909)</b>	<b>\$ 2,345</b>

### *Pension and Postretirement Plan Assets*

Fair value measurements also apply to the valuation of our pension and postretirement plan assets. Current accounting guidance requires employers to annually disclose information about the fair value measurements of their assets of a defined benefit pension or other postretirement plan. The fair value of these assets is presented in Note 18 to the Consolidated Financial Statements included in our 2019 Annual Report on Form 10-K. The Company has concluded that the market volatility associated with COVID-19 does not require interim re-measurement of our pension plan assets or defined benefit obligations. See [Note 12](#) for additional information.

### Nonrecurring Fair Value Measurement

A discussion of the fair value of our investment in equity securities of a privately held oil and gas company, a Level 3 asset, is included in [Note 15](#).

### Other Fair Value Measures

The following table presents the carrying amounts and fair values of financial instruments not recorded at fair value on the Condensed Consolidated Balance Sheets (in thousands) as of:

	June 30, 2020		December 31, 2019	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Long-term debt, including current maturities <sup>(a)</sup>	\$ 3,537,194	\$ 4,051,912	\$ 3,145,839	\$ 3,479,367

(a) Long-term debt is valued based on observable inputs available either directly or indirectly for similar liabilities in active markets and therefore is classified as Level 2 in the fair value hierarchy. Carrying amount of long-term debt is net of deferred financing costs.

**(11) Other Comprehensive Income (Loss)**

We record deferred gains (losses) in AOCI related to interest rate swaps designated as cash flow hedges, commodity contracts designated as cash flow hedges and the amortization of components of our defined benefit plans. Deferred gains (losses) for our commodity contracts designated as cash flow hedges are recognized in earnings upon settlement, while deferred gains (losses) related to our interest rate swaps are recognized in earnings as they are amortized.

The following table details reclassifications out of AOCI and into net income. The amounts in parentheses below indicate decreases to net income in the Condensed Consolidated Statements of Income for the period (in thousands):

	Location on the Condensed Consolidated Statements of Income	Amount Reclassified from AOCI			
		Three Months Ended June 30,		Six Months Ended June 30,	
		2020	2019	2020	2019
<b>Gains and (losses) on cash flow hedges:</b>					
Interest rate swaps	Interest expense	\$ (713)	\$ (713)	\$ (1,426)	\$ (1,426)
Commodity contracts	Fuel, purchased power and cost of natural gas sold	(70)	83	(556)	637
		(783)	(630)	(1,982)	(789)
Income tax	Income tax benefit (expense)	186	153	471	188
Total reclassification adjustments related to cash flow hedges, net of tax		\$ (597)	\$ (477)	\$ (1,511)	\$ (601)
<b>Amortization of components of defined benefit plans:</b>					
Prior service cost	Operations and maintenance	\$ 25	\$ 20	\$ 55	\$ 39
Actuarial gain (loss)	Operations and maintenance	(597)	(221)	(1,194)	(441)
		(572)	(201)	(1,139)	(402)
Income tax	Income tax benefit (expense)	176	47	264	95
Total reclassification adjustments related to defined benefit plans, net of tax		\$ (396)	\$ (154)	\$ (875)	\$ (307)
Total reclassifications		\$ (993)	\$ (631)	\$ (2,386)	\$ (908)

Balances by classification included within AOCI, net of tax on the accompanying Condensed Consolidated Balance Sheets were as follows (in thousands):

	Interest Rate Swaps	Commodity Derivatives	Employee Benefit Plans		Total
As of December 31, 2019	\$ (15,122)	\$ (456)	\$ (15,077)	\$ (30,655)	
Other comprehensive income (loss) before reclassifications	—	(220)	55	(165)	
Amounts reclassified from AOCI	1,087	424	875	2,386	
As of June 30, 2020	\$ (14,035)	\$ (252)	\$ (14,147)	\$ (28,434)	
	Interest Rate Swaps	Commodity Derivatives	Employee Benefit Plans		Total
As of December 31, 2018	\$ (17,307)	\$ 328	\$ (9,937)	\$ (26,916)	
Other comprehensive income (loss) before reclassifications	—	(219)	—	(219)	
Amounts reclassified from AOCI	1,091	(490)	307	908	
As of June 30, 2019	\$ (16,216)	\$ (381)	\$ (9,630)	\$ (26,227)	

**(12) Employee Benefit Plans**Change in Accounting Principle - Pension Accounting Asset Method

Effective January 1, 2020, the Company changed its method of accounting for net periodic benefit cost. Prior to the change, the Company used a calculated value for determining market-related value of plan assets which amortized the effects of gains and losses over a five-year period. Effective with the accounting change, the Company will use a calculated value for the return-seeking assets (equities) in the portfolio and fair value for the liability-hedging assets (fixed income). The Company considers the fair value method for determining market-related value of liability-hedging assets to be a preferable method of accounting because asset-related gains and losses are subject to amortization into pension cost immediately. Additionally, the fair value for liability-hedging assets allows for the impact of gains and losses on this portion of the asset portfolio to be reflected in tandem with changes in the liability which is linked to changes in the discount rate assumption for re-measurement.

We evaluated the effect of this change in accounting method and deemed it immaterial to the historical and current financial statements and therefore did not account for the change retrospectively. Accordingly, the Company calculated the cumulative difference using a calculated value versus fair value to determine market-related value for liability-hedging assets of the portfolio. The cumulative effect of this change, as of January 1, 2020, resulted in a decrease to prior service costs, as recorded in Other income (expense), net, of \$0.6 million, an increase in Income tax expense of \$0.2 million and an increase to Net income of \$0.4 million within the accompanying Condensed Consolidated Statements of Income for the six months ended June 30, 2020.

Funding Status of Employee Benefit Plans

Based on the fair value of assets and estimated discount rate used to value benefit obligations as of June 30, 2020, we estimate the unfunded status of our employee benefit plans to be approximately \$50 million compared to \$51 million at December 31, 2019. In 2012, we froze our pension plan and closed it to new participants. Since then, we have implemented various de-risking strategies including lump sum buyouts, the purchase of annuities and the reduction of return-seeking assets over time to a more liability-hedged portfolio. As a result, recent capital markets volatility driven by the COVID-19 pandemic has not materially affected our unfunded status and does not require interim re-measurement of our pension plan assets or defined benefit obligations.

Defined Benefit Pension Plan

The components of net periodic benefit cost for the Defined Benefit Pension Plan were as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2020	2019	2020	2019
Service cost	\$ 1,353	\$ 1,345	\$ 2,706	\$ 2,691
Interest cost	3,356	4,344	6,713	8,687
Expected return on plan assets	(5,648)	(6,100)	(11,296)	(12,200)
Prior service cost	—	7	—	13
Net loss (gain)	2,093	940	4,186	1,881
Net periodic benefit cost	\$ 1,154	\$ 536	\$ 2,309	\$ 1,072

Defined Benefit Postretirement Healthcare Plan

The components of net periodic benefit cost for the Defined Benefit Postretirement Healthcare Plan were as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2020	2019	2020	2019
Service cost	\$ 514	\$ 454	\$ 1,028	\$ 908
Interest cost	413	563	825	1,123
Expected return on plan assets	(46)	(58)	(91)	(115)
Prior service (benefit)	(137)	(100)	(274)	(199)
Net loss (gain)	5	—	10	—
Net periodic benefit cost	\$ 749	\$ 859	\$ 1,498	\$ 1,717

Supplemental Non-qualified Defined Benefit and Defined Contribution Plans

The components of net periodic benefit cost for the Supplemental Non-qualified Defined Benefit and Defined Contribution Plans were as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2020	2019	2020	2019
Service cost	\$ 1,817	\$ 692	\$ 447	\$ 1,977
Interest cost	275	324	550	648
Prior service cost	—	1	—	1
Net loss (gain)	426	134	852	268
Net periodic benefit cost	\$ 2,518	\$ 1,151	\$ 1,849	\$ 2,894

Contributions

Contributions to the Defined Benefit Pension Plan are cash contributions made directly to the Pension Plan Trust account. Contributions to the Postretirement Healthcare and Supplemental Plans are made in the form of benefit payments. Contributions made in the first six months of 2020 and anticipated contributions for 2020 and 2021 are as follows (in thousands):

	Contributions Made	Additional	Contributions
	Six Months Ended June 30, 2020	Contributions Anticipated for 2020	Contributions Anticipated for 2021
Defined Benefit Pension Plan	\$ 12,700	\$ —	\$ 12,700
Non-pension Defined Benefit Postretirement Healthcare Plans	\$ 2,670	\$ 2,671	\$ 5,364
Supplemental Non-qualified Defined Benefit and Defined Contribution Plans	\$ 710	\$ 710	\$ 1,614

### **(13) Commitments and Contingencies**

There have been no significant changes to commitments and contingencies from those previously disclosed in Note 19 of our Notes to the Consolidated Financial Statements in our 2019 Annual Report on Form 10-K except for those described below and in [Note 5](#).

#### Power Sales Agreement - Colorado Electric

On July 1, 2020, Colorado Electric entered into a PSA with the City of Colorado Springs to sell up to 60 MW of wind energy purchased from PRPA under a separate PPA. This agreement expires June 30, 2025.

### **(14) Income Taxes**

#### **CARES Act**

On March 27, 2020, the President signed the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act"), which contained, in part, an allowance for deferral of the employer portion of Social Security employment tax liabilities until 2021 and 2022, as well as a COVID-19 employee retention tax credit of up to \$5,000 per eligible employee.

Eligible employers are taxpayers experiencing either: (1) a full or partial suspension of business operations stemming from a government COVID-19-related order or (2) a more than 50% drop in gross receipts compared to the corresponding calendar quarter in 2019. This 50% employee retention tax credit applies up to \$10,000 in qualified wages paid between March 13, 2020 through December 31, 2020, and is refundable to the extent it exceeds the employer portion of payroll tax liability.

Eligible wages or employer-paid health benefits must be paid for the period of time during which an employee did not provide services. However, employees do not need to stop providing all services to the employer for the credit to potentially apply.

Additionally, the CARES Act accelerates the amount of alternative minimum tax ("AMT") credits that can be refunded for the 2018 and 2019 annual tax returns.

During the second quarter 2020, we utilized the payroll tax deferral provision which allowed us to defer payment of approximately \$2.9 million of Social Security employment tax liabilities. We are currently reviewing the potential future benefits of the CARES Act related to employee retention tax credits to assess the impact on our financial position, results of operations and cash flows.

#### **Income tax (expense) for the Three Months Ended June 30, 2020 Compared to the Three Months Ended June 30, 2019.**

Income tax (expense) for the three months ended June 30, 2020 was \$(4.8) million compared to \$(2.3) million reported for the same period in 2019. For the three months ended June 30, 2020, the effective tax rate was 16.4% compared to 11.5% for the same period in 2019. The higher effective tax rate is primarily due to a prior year discrete tax benefit related to repairs and certain indirect costs.

#### **Income tax (expense) for the Six Months Ended June 30, 2020 Compared to the Six Months Ended June 30, 2019.**

Income tax (expense) for the six months ended June 30, 2020 was \$(21) million compared to \$(20) million reported for the same period in 2019. For the six months ended June 30, 2020, the effective tax rate was 14.6% compared to 13.5% for the same period in 2019. The higher effective tax rate is primarily due to a prior year discrete tax benefit related to repairs and certain indirect costs and a current year discrete tax adjustment related to the impairment of our investment in equity securities of a privately held oil and gas company partially offset by increased tax benefits from forecasted federal production tax credits associated with new wind assets.

**(15) Investments**

In February 2018, we contributed \$28 million of assets in exchange for equity securities in a privately held oil and gas company as we divested our Oil and Gas segment. The carrying value of our investment in the equity securities was recorded at cost. We review this investment on a periodic basis to determine whether a significant event or change in circumstances has occurred that may have an adverse effect on the value of the investment.

During the third quarter of 2019, we assessed our investment for impairment as a result of a deterioration in earnings performance of the privately held oil and gas company and an adverse change in future natural gas prices. We engaged a third-party valuation consultant to estimate the fair value of our investment. The valuation was primarily based on an income approach but also considered a market valuation approach. The significant inputs used to estimate the fair value were the oil and gas reserve quantities and values utilizing forward market price curves, industry standard reserve adjustment factors and a discount rate of 10%. Based on the results of the valuation, we concluded that the carrying value of the investment exceeded fair value. As a result, we recorded a pre-tax impairment loss of \$20 million for the three months ended September 30, 2019, which was the difference between the carrying value and the fair value of the investment at that time.

During the first quarter of 2020, we assessed our investment for impairment as a result of continued adverse changes in future natural gas prices and liquidity concerns at the privately held oil and gas company. We performed an internal analysis to compute the fair value of our investment, utilizing a consistent methodology as applied during the third quarter of 2019. Based on the results of the valuation, we concluded that the carrying value of the investment exceeded fair value. As a result, we recorded a pre-tax impairment loss of \$6.9 million for the three months ended March 31, 2020, which was the difference between the carrying value and the fair value of the investment at that time.

The following table presents the carrying value of our investments (in thousands) as of:

	June 30, 2020	December 31, 2019
Investment in privately held oil and gas company	\$ 1,500	\$ 8,359
Cash surrender value of life insurance contracts	13,423	13,056
Other investments	515	514
Total investments	\$ 15,438	\$ 21,929

**(16) Subsequent Events**

We evaluated all subsequent event activity and concluded that no subsequent events have occurred that would require recognition in the condensed consolidated financial statements or disclosures, with the exception of those items disclosed in Notes [8](#) and [13](#).

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

### Executive Summary

We are a customer-focused, growth-oriented utility company operating in the United States. We report our operations and results in the following business segments:

**Electric Utilities:** Our Electric Utilities segment generates, transmits and distributes electricity to approximately 214,000 customers in Colorado, Montana, South Dakota and Wyoming. Our electric generating facilities and power purchase agreements provide for the supply of electricity principally to our distribution systems. Additionally, we sell excess power to other utilities and marketing companies, including our affiliates. We also provide non-regulated services through our Tech Services product lines.

**Gas Utilities:** Our Gas Utilities segment conducts natural gas utility operations through our Arkansas, Colorado, Iowa, Kansas, Nebraska and Wyoming subsidiaries. Our Gas Utilities segment distributes and transports natural gas through our pipeline network to approximately 1,066,000 natural gas customers. Additionally, we sell contractual pipeline capacity and gas commodities to other utilities and marketing companies, including our affiliates, on an as-available basis.

Black Hills Energy Services provides natural gas supply to approximately 49,000 retail distribution customers under the Choice Gas Program in Nebraska and Wyoming. Additionally, we provide services under the Service Guard Comfort Plan and Tech Services and also offer HomeServe products.

**Power Generation:** Our Power Generation segment produces electric power from its non-regulated generating plants and sells the electric capacity and energy primarily to our utilities under long-term contracts.

**Mining:** Our Mining segment extracts coal at our mine near Gillette, Wyoming, and sells the coal primarily to on-site, mine-mouth power generation facilities.

Our reportable segments are based on our method of internal reporting, which is generally segregated by differences in products, services and regulation. All of our operations and assets are located within the United States. All of our non-utility business segments support our utilities. Certain unallocated corporate expenses that support our operating segments are presented as Corporate and Other.

Certain industries in which we operate are highly seasonal and revenue from, and certain expenses for, such operations may fluctuate significantly among quarterly periods. Demand for electricity and natural gas is sensitive to seasonal cooling, heating and industrial load requirements. In particular, the normal peak usage season for our Electric Utilities is June through August while the normal peak usage season for our Gas Utilities is November through March. Significant earnings variances can be expected between the Gas Utilities segment's peak and off-peak seasons. Due to this seasonal nature, our results of operations for the three and six months ended June 30, 2020 and 2019, and our financial condition as of June 30, 2020 and December 31, 2019, are not necessarily indicative of the results of operations and financial condition to be expected as of or for any other period or for the entire year.

See [Forward-Looking Information](#) in the [Liquidity and Capital Resources](#) section of this Item 2, beginning on Page 59.

### COVID-19 Pandemic

One of the Company's core values is safety. The COVID-19 pandemic has given us an opportunity to demonstrate our commitment to the health and safety of our customers, employees, business partners and the communities we serve. We have executed our business continuity plans across all of our jurisdictions with the goal of continuing to provide safe and reliable service during the COVID-19 pandemic.

For the three and six months ended June 30, 2020, we have experienced limited impacts to our financial results and operational activities due to COVID-19. Estimated decreases to gross margins driven primarily by lower volumes, increased costs due to sequestration of mission critical and essential employees and increased bad debt expense were partially offset by decreased training, travel and outside services related expenses.

During the three months ended June 30, 2020, COVID-19 had a limited impact on revenues and customer loads, as the decline in volumes from commercial and certain industrial and transport customers was partially offset by higher residential usage. Decline in revenues and customer loads for the six months ended June 30, 2020, when compared to the same period in the prior year, were driven primarily by weather. We continue to closely monitor loads in our states as updated executive orders and recommendations associated with COVID-19 are provided. We have continued to proactively communicate with various commercial and industrial customers in our service territories to understand their needs and forecast the potential financial implications. We have increased our allowance for credit losses and bad debt expense by \$1.5 million and \$2.0 million for the three and six months ended June 30, 2020, respectively, after considering the potential economic impact of the COVID-19 pandemic in forward looking projections related to write-off and recovery rates. All of our jurisdictions temporarily suspended disconnections for a period of time. State orders lifting those restrictions have been issued in some of our jurisdictions; however, we expect the status of restrictions will continue to fluctuate for the next several months. We continue to monitor customer loads, accounts receivable arrears balances, disconnects, cash flows and bad debt expense. We are proactively working with customers to establish payment plans and find available payment assistance resources.

We continue to maintain adequate liquidity to operate our businesses and fund our capital investment program. In February 2020, the Company issued \$100 million in equity to support its 2020 capital investment program. In June 2020, the Company issued \$400 million of long-term debt which was used to repay short-term debt and for working capital and general corporate purposes. For the six months ended June 30, 2020, the Company also utilized a combination of its \$750 million Revolving Credit Facility and CP Program to meet its funding requirements. Disruptions in the commercial paper markets at the outset of the COVID-19 pandemic in the U.S. have since improved. The Company has no material debt maturities until late 2023 and as of June 30, 2020, had \$770 million of liquidity which included \$32 million of cash and \$738 million of available capacity on its Revolving Credit Facility. We continue to meet our debt covenant requirements. We also continue to monitor the funding status of our employee benefit plan obligations, which did not materially change during the six months ended June 30, 2020.

We are monitoring supply chains, including lead times for key materials and supplies, availability of resources, and statuses of large capital projects. To date, there have been limited impacts from COVID-19 on supply chains including the availability of supplies, materials and lead times. Capital projects are ongoing without material disruption to schedules. Our third party resources continue to support our business plans without disruption. Contingency plans are ready to be executed if significant disruption to supply chain occurs; however, we currently do not anticipate a significant impact from COVID-19 on our capital investment plan for 2020.

We continue to work closely with local health, public safety and government officials to minimize the spread of COVID-19 and its impact to our employees and the services we provide to our customers. Some of the actions the Company has taken include implementing protocols for our field operations personnel to continue to safely and effectively interact with our customers, asking employees to work from home to the extent possible, quarantining employees if they have traveled to an at-risk area, limiting travel to only mission-critical purposes and sequestering essential employees.

As we look forward to the second half of 2020, we anticipate that our operating results could potentially be further affected by COVID-19, as discussed in detail in our [Risk Factors](#).

We provide periodic status updates and maintain ongoing dialogue with the regulatory commissions in our jurisdictions. We are working with regulators in each of our service territories to preserve our right for deferred regulatory treatment for certain COVID-19 related costs and to seek recovery of these costs at a later date.

During these uncertain times, we remain highly focused on the safety and health of our customers, employees, business partners and communities. We continue to monitor load, customers' ability to pay, the potential for supply chain disruption that may impact our capital and maintenance project plans, the availability of resources to execute our plans and the capital markets to ensure we have the liquidity necessary to support our financial needs.

## 2020 Business Segment Highlights and Corporate Activity

### Electric Utilities

- South Dakota Electric and Wyoming Electric continued construction of the \$79 million, Corriedale project. The wind project will be jointly owned by the two electric utilities to deliver renewable energy for large commercial, industrial and governmental agency customers. The project is on schedule and on budget and expected to be in service by year-end 2020.
- On July 10, 2020, Wyoming Electric set a new all-time peak load of 271 MW, surpassing the previous peak of 265 MW set in July 2019.
- On June 19, 2020, Colorado Electric submitted its 120-day report to the CPUC, which provided a detailed analysis of the proposals received during its competitive solicitation and outlined its preferred bid, a 200 MW solar project, along with several back-up options, in the Renewable Advantage plan. The bidding process for new renewable energy projects concluded in February 2020, attracting interest from developers in southern Colorado and across the U.S. In total, Colorado Electric received 54 bids from 25 bidders for renewable energy projects at varying sizes, prices, technology types and locations, with the majority of projects to be sited in the city of Pueblo and Pueblo County. A hearing to review the 120-day report with the CPUC is scheduled for August 18, 2020. The project is scheduled to be in service in 2023.
- On June 1, 2020, Black Hills Wyoming and Wyoming Electric filed a settlement agreement with the FERC. The agreement represents a resolution of all issues in the joint application filed with the FERC on August 2, 2019 for approval of a new 60 MW PPA. On July 10, 2020, a judge certified the settlement to the FERC and a decision is expected by the end of 2020. If approved, Wyoming Electric will continue to receive 60 MW of capacity and energy from the Wygen I power plant. The new agreement would commence on January 1, 2022, replacing the existing PPA and would continue for 11 years.
- On May 5, 2020, citizens in Pueblo, Colorado voted overwhelmingly to retain Colorado Electric as its electric utility provider by 75.6% of votes cast. The current franchise agreement continues through 2030.

### Gas Utilities

- On January 1, 2020, Nebraska Gas completed the legal consolidation of its two natural gas utilities, having received approval from the NPSC on October 29, 2019. On June 1, 2020, Nebraska Gas filed a rate review with the NPSC to consolidate rates, tariffs, and services of its two existing gas distribution territories. The rate review requests \$17 million in new revenue, as well as an extension of the SSIR, to recover investments in safety, reliability and system integrity. The rate review requests a capital structure of 50% equity and 50% debt and a return on equity of 10% for investments Nebraska Gas made in its natural gas pipeline system. Nebraska statute allows for implementation of interim rates 90 day after filing a rate review. New rates are expected to be effective in early 2021.
- On February 1, 2019, Colorado Gas filed a rate review with the CPUC requesting \$2.5 million in new revenue to recover investments in safety, reliability and system integrity and approval to consolidate rates, tariffs, and services of its two existing gas distribution territories. Colorado Gas also requested a new rider mechanism to recover future safety and integrity investments in its system. On April 14, 2020 the CPUC deliberated on the application and on May 19, 2020 issued a final order. The order denied the new system integrity recovery mechanism and consolidation of rate territories. In addition, the order resulted in an annual revenue decrease of \$0.6 million and a return on equity of 9.2%. New rates were effective July 3, 2020. In accordance with the final order, Colorado Gas will file a new system integrity rider proposal prior to the end of 2020. Colorado Gas also plans to file a new rate review by the end of 2020.
- Wyoming Gas's new single statewide rate structure was effective March 1, 2020. On December 11, 2019, Wyoming Gas received approval from the WPSC to consolidate the rates, tariffs and services of its four existing gas distribution territories. New rates are expected to generate \$13 million in new annual revenue based on a return on equity of 9.40% and a capital structure of 50.23% equity and 49.77% debt. The approval also allows for a rider to recover integrity investments for system safety and reliability.

Power Generation

- On June 1, 2020, Black Hills Wyoming and Wyoming Electric filed a settlement agreement with the FERC. The agreement represents a resolution of all issues in the joint application filed with the FERC on August 2, 2019 for approval of a new 60 MW PPA. See additional information in the Electric Utilities Segment highlights above.

Corporate and Other

- On August 3, 2020, we filed a shelf registration and DRSP with the SEC. In conjunction with these shelf filings, we renewed the ATM. The renewed ATM program, which allows us to sell shares of our common stock, is the same as the prior program other than the aggregate value increased from \$300 million to \$400 million and a forward sales option was incorporated.
- On June 17, 2020, we completed a public debt offering of \$400 million principal amount in senior unsecured notes. The debt offering consisted of \$400 million of 2.50%, 10-year senior notes due June 15, 2030. The proceeds were used to repay short-term debt and for working capital and general corporate purposes.
- On April 16, 2020, S&P affirmed South Dakota Electric's credit rating at A.
- On April 10, 2020, S&P affirmed our BBB+ rating and maintained a stable outlook.
- On February 27, 2020, we issued 1.2 million shares of common stock at a price of \$81.77 per share for net proceeds of \$99 million.

## Results of Operations

Segment information does not include intercompany eliminations and all amounts are presented on a pre-tax basis unless otherwise indicated. Minor differences may result due to rounding.

### Consolidated Summary and Overview

(a) Adjusted operating income recognizes intersegment revenues and costs for Colorado Electric's PPA with Black Hills Colorado IPP on an accrual basis rather than as a finance lease. This presentation of segment information does not impact consolidated financial results.

### Three Months Ended June 30, 2020 Compared to Three Months Ended June 30, 2019:

The variance to the prior year included the following:

- COVID-19 related impacts to consolidated results included \$2.4 million of lower gross margin driven primarily by lower volumes, \$2.0 million of costs due to sequestration of mission-critical and essential employees and \$1.5 million of additional bad debt expense which were partially offset by \$3.4 million of lower travel, training, and outside services expenses;
- Electric Utilities' adjusted operating income increased \$0.4 million primarily due to favorable spring weather and lower operating expenses mostly offset by a rider true-up and COVID-19 impacts to margin from lower commercial volumes;
- Gas Utilities' adjusted operating income increased \$9.7 million primarily due to new customer rates in Wyoming, prior year direct and indirect impacts from significant rainfall and flooding in our service territories, mark-to-market gains on non-utility natural gas commodity contracts and lower operating expenses partially offset by COVID-19 impacts to margin from lower volumes from certain industrial and transport customers;
- Power Generation's adjusted operating income increased \$1.2 million primarily due to increased MWh sold driven by new wind assets and strong availability;

- Mining's adjusted operating income increased \$1.7 million primarily due to higher tons sold driven by prior year planned and unplanned facility outages;
- Interest expense increased \$1.3 million primarily due to higher debt balances partially offset by lower rates;
- Other expense increased \$2.1 million primarily due to increased costs for our non-qualified benefit plan driven by market performance on plan assets; and
- Income tax expense increased \$2.5 million primarily due to a prior year discrete tax benefit related to repairs and certain indirect costs.

#### **Six Months Ended June 30, 2020 Compared to Six Months Ended June 30, 2019:**

The variance to the prior year included the following:

- COVID-19 related impacts to consolidated results included \$2.4 million of lower gross margin driven primarily by lower volumes, \$2.0 million of costs due to sequestration of mission-critical and essential employees and \$2.0 million of additional bad debt expense which were partially offset by \$3.4 million of lower travel, training, and outside services expenses;
- Electric Utilities' adjusted operating income decreased \$4.9 million primarily due to COVID-19 impacts to margin from lower commercial volumes, lower power marketing margins and higher operating expenses partially offset by increased mark-to-market on wholesale energy contracts;
- Gas Utilities' adjusted operating income increased \$9.2 million primarily due to new customer rates in Wyoming, prior year amortization of excess deferred income taxes, customer growth, mark-to-market gains on non-utility natural gas commodity contracts and lower operating expenses partially offset by lower heating demand from warmer winter weather and COVID-19 impacts to margin from lower volumes from certain industrial and transport customers;
- Interest expense increased \$2.0 million primarily due to higher debt balances partially offset by lower rates; and
- A \$6.9 million pre-tax non-cash impairment of our investment in equity securities of a privately held oil and gas company.

#### **Operating Results by Segment**

A discussion of operating results from our segments and Corporate activities follows in the sections below. Revenues for operating segments in the following sections are presented in total and by retail class. For disaggregation of revenue by contract type and operating segment, see [Note 2](#) of the Notes to Condensed Consolidated Financial Statements for more information.

#### ***Non-GAAP Financial Measure***

The following discussion includes financial information prepared in accordance with GAAP, as well as another financial measure, gross margin, that is considered a "non-GAAP financial measure." Generally, a non-GAAP financial measure is a numerical measure of a company's financial performance, financial position or cash flows that excludes (or includes) amounts that are included in (or excluded from) the most directly comparable measure calculated and presented in accordance with GAAP. Gross margin (revenue less cost of sales) is a non-GAAP financial measure due to the exclusion of depreciation and amortization from the measure. The presentation of gross margin is intended to supplement investors' understanding of our operating performance.

Gross margin for our Electric Utilities is calculated as operating revenue less cost of fuel and purchased power. Gross margin for our Gas Utilities is calculated as operating revenue less cost of natural gas sold. Our gross margin is impacted by the fluctuations in power and natural gas purchases and other fuel supply costs. However, while these fluctuating costs impact gross margin as a percentage of revenue, they only impact total gross margin if the costs cannot be passed through to our customers.

Our gross margin measure may not be comparable to other companies' gross margin measure. Furthermore, this measure is not intended to replace operating income, as determined in accordance with GAAP, as an indicator of operating performance.

**Electric Utilities**

	Three Months Ended June 30,			Six Months Ended June 30,		
	2020	2019	Variance	2020	2019	Variance
	(in thousands)					
Revenue	\$ 163,200	\$ 166,354	\$ (3,154)	\$ 337,339	\$ 349,281	\$ (11,942)
Total fuel and purchased power	59,053	62,128	(3,075)	123,513	135,411	(11,898)
Gross margin (non-GAAP)	104,147	104,226	(79)	213,826	213,870	(44)
Operations and maintenance	47,031	48,733	(1,702)	97,530	95,877	1,653
Depreciation and amortization	23,123	21,947	1,176	46,653	43,427	3,226
Total operating expenses	70,154	70,680	(526)	144,183	139,304	4,879
Adjusted operating income	\$ 33,993	\$ 33,546	\$ 447	\$ 69,643	\$ 74,566	\$ (4,923)

**Three Months Ended June 30, 2020 Compared to the Three Months Ended June 30, 2019:**

Gross margin for the three months ended June 30, 2020 decreased as a result of the following:

	(in millions)
COVID-19 impacts <sup>(a)</sup>	\$ (1.5)
Rider recovery and true-up <sup>(b)</sup>	(1.3)
Weather	2.4
Other	0.3
Total decrease in Gross margin (non-GAAP)	\$ (0.1)

(a) The impacts to Electric Utilities gross margin from COVID-19 were driven by reduced commercial volumes partially offset by higher residential usage.

(b) Gross margin decreased due to a \$2.5 million rider true-up, which was partially offset by \$1.2 million of increased rider recovery.

Operations and maintenance expense decreased primarily due to lower generation expenses driven by timing of planned outages and lower employee costs. COVID-19 impacts to operations and maintenance expense included \$1.6 million of expenses related to the sequestration of essential employees and \$0.5 million of additional bad debt expense which were offset by \$2.0 million of lower travel, training and outside services related expenses.

Depreciation and amortization increased primarily due to a higher asset base driven by prior year and current year capital expenditures.

**Six Months Ended June 30, 2020 Compared to the Six Months Ended June 30, 2019:**

Gross margin for the six months ended June 30, 2020 remained constant as a result of the following:

	(in millions)	
COVID-19 impacts <sup>(a)</sup>	\$	(1.5)
Off-system power marketing		(1.2)
Rider recovery and true-up <sup>(b)</sup>		(0.3)
Mark-to-market on wholesale energy contracts		1.2
Weather		0.6
Residential customer growth		0.4
Other		0.8
Total change in Gross margin (non-GAAP)	\$	—

(a) The impacts to Electric Utilities gross margin from COVID-19 were driven by reduced commercial volumes partially offset by higher residential usage.

(b) Gross margin decreased due to a \$2.5 million rider true-up, which was mostly offset by \$2.2 million of increased rider recovery.

Operations and maintenance expense increased primarily due to \$1.4 million of expenses related to the municipalization efforts in Pueblo, Colorado. COVID-19 impacts to operations and maintenance expense included \$1.6 million of expenses related to the sequestration of essential employees and \$0.6 million of additional bad debt expense which were offset by \$2.0 million of lower travel, training and outside services related expenses.

Depreciation and amortization increased primarily due to a higher asset base driven by prior year and current year capital expenditures.

**Three Months Ended June 30, 2020 Compared to the Three Months Ended June 30, 2019:**

Gross margin for the three months ended June 30, 2020 increased as a result of:

	(in millions)
New rates	\$ 3.6
Weather	2.8
Mark-to-market on non-utility natural gas commodity contracts	1.6
Customer growth - distribution	0.6
COVID-19 impacts <sup>(a)</sup>	(0.9)
Decreased transport and transmission	(0.8)
Other	1.1
<b>Total increase in Gross margin (non-GAAP)</b>	<b>\$ 8.0</b>

(a) The impacts to Gas Utilities gross margin from COVID-19 were primarily driven by reduced volumes from certain industrial and transport customers.

Operations and maintenance expense decreased primarily due to \$1.5 million of lower employee costs and \$1.5 million of lower outside service expenses. COVID-19 impacts to operations and maintenance expense included \$1.4 million of lower travel, training and outside services related expenses which were partially offset by \$1.0 million of additional bad debt expense. Various other expenses comprised the remainder of the difference when compared to the same period in the prior year.

Depreciation and amortization increased primarily due to a higher asset base driven by prior year and current year capital expenditures.

**Six Months Ended June 30, 2020 Compared to the Six Months Ended June 30, 2019:**

Gross margin for the six months ended June 30, 2020 increased as a result of:

	(in millions)	
New rates	\$	9.2
Prior year amortization of excess deferred income taxes		2.7
Customer growth - distribution		2.1
Mark-to-market on non-utility natural gas commodity contracts		2.4
Weather		(7.6)
COVID-19 impacts <sup>(a)</sup>		(0.9)
Other		1.7
Total increase in Gross margin (non-GAAP)	\$	9.6

(a) The impacts to Gas Utilities gross margin from COVID-19 were primarily driven by reduced volumes from certain industrial and transport customers.

Operations and maintenance expense decreased primarily due to \$3.4 million of lower outside services expenses, \$1.9 million of lower employee costs partially offset by \$0.9 million of higher property taxes due to a higher asset base. COVID-19 impacts to operations and maintenance expense included \$1.4 million of lower travel, training and outside services related expenses which were offset by \$1.4 million of additional bad debt expense. Various other expenses comprised the remainder of the difference when compared to the same period in the prior year.

Depreciation and amortization increased primarily due to a higher asset base driven by prior year and current year capital expenditures.

Our Gas Utilities are highly seasonal, and sales volumes vary considerably with weather and seasonal heating and industrial loads. Approximately 70% of our Gas Utilities' revenue and margins are expected in the first and fourth quarters of each year. Therefore, revenue for, and certain expenses of, these operations fluctuate significantly among quarters. Depending upon the geographic location in which our Gas Utilities operate, the winter heating season begins around November 1 and ends around March 31.

	Three Months Ended June 30,			
	2020		2019	
Heating Degree Days	Actual	Variance from Normal	Actual	Variance from Normal
Arkansas Gas <sup>(a)</sup>	353	7%	246	(25)%
Colorado Gas	809	(15)%	1,017	6%
Iowa Gas	783	14%	738	8%
Kansas Gas <sup>(a)</sup>	477	7%	425	(5)%
Nebraska Gas	692	9%	664	5%
Wyoming Gas	1,216	—%	1,397	15%
Combined <sup>(b)</sup>	688	2%	795	5%

  

	Six Months Ended June 30,			
	2020		2019	
Heating Degree Days:	Actual	Variance from Normal	Actual	Variance from Normal
Arkansas Gas <sup>(a)</sup>	2,012	(17)%	2,347	(4)%
Colorado Gas	3,638	(6)%	4,047	4%
Iowa Gas	3,964	(2)%	4,568	13%
Kansas Gas <sup>(a)</sup>	2,781	(4)%	3,204	10%
Nebraska Gas	3,527	(4)%	4,147	13%
Wyoming Gas	4,433	1%	4,910	11%
Combined Gas <sup>(b)</sup>	3,606	(4)%	4,244	10%

(a) Arkansas and Kansas have weather normalization mechanisms that mitigate the weather impact on gross margins.

(b) The combined heating degree days are calculated based on a weighted average of total customers by state excluding Kansas due to its weather normalization mechanism. Arkansas is excluded based on the weather normalization mechanism in effect from November through April.

### **Regulatory Matters**

For more information on recent regulatory activity and enacted regulatory provisions with respect to the states in which our Utilities operate, see [Note 5](#) of the Notes to Condensed Consolidated Financial Statements and Part I, Items 1 and 2 and Part II, Item 8 of our 2019 Annual Report on Form 10-K filed with the SEC.

**Power Generation**

	Three Months Ended June 30,			Six Months Ended June 30,		
	2020	2019	Variance	2020	2019	Variance
	(in thousands)					
Revenue	\$ 26,122	\$ 24,708	\$ 1,414	\$ 52,088	\$ 49,953	\$ 2,135
Fuel expense	2,087	2,024	63	4,372	4,650	(278)
Operations and maintenance	7,350	7,809	(459)	14,347	13,871	476
Depreciation and amortization	5,283	4,719	564	10,618	9,309	1,309
Total operating expense	14,720	14,552	168	29,337	27,830	1,507
Adjusted operating income	\$ 11,402	\$ 10,156	\$ 1,246	\$ 22,751	\$ 22,123	\$ 628

**Three Months Ended June 30, 2020 Compared to the Three Months Ended June 30, 2019:**

Revenue increased in the current year driven primarily by increased MWh sold from new wind assets and additional Black Hills Colorado IPP fired-engine hours. Operating expenses increased primarily due to higher depreciation from new wind assets and COVID-19 impacts of \$0.4 million of expenses related to the sequestration of essential employees partially offset by lower maintenance costs due to a prior year planned outage at Pueblo Airport Generation.

**Six Months Ended June 30, 2020 Compared to the Six Months Ended June 30, 2019:**

Revenue increased in the current year driven by an increase in MWh sold from new wind assets and additional Black Hills Colorado IPP fired-engine hours. Operating expenses increased primarily due to higher depreciation from new wind assets. COVID-19 impacts to operations and maintenance expense included \$0.4 million of expenses related to the sequestration of essential employees.

The following table summarizes MWh for our Power Generation segment:

Quantities Sold, Generated and Purchased (MWh) <sup>(a)</sup>	Three Months Ended June 30,		Six Months Ended June 30,	
	2020	2019	2020	2019
<b>Sold</b>				
Black Hills Colorado IPP	263,701	210,316	528,926	416,289
Black Hills Wyoming <sup>(b)</sup>	156,866	149,713	313,218	313,762
Black Hills Electric Generation	92,629	47,796	189,908	81,549
<b>Total Sold</b>	<b>513,196</b>	<b>407,825</b>	<b>1,032,052</b>	<b>811,600</b>
<b>Generated</b>				
Black Hills Colorado IPP	263,701	210,316	528,926	416,289
Black Hills Wyoming <sup>(b)</sup>	142,747	132,189	269,232	264,782
Black Hills Electric Generation	92,629	47,796	189,908	81,549
<b>Total Generated</b>	<b>499,077</b>	<b>390,301</b>	<b>988,066</b>	<b>762,620</b>
<b>Purchased</b>				
Black Hills Wyoming <sup>(b)</sup>	14,160	13,761	44,093	39,340
<b>Total Purchased</b>	<b>14,160</b>	<b>13,761</b>	<b>44,093</b>	<b>39,340</b>

(a) Company uses and losses are not included in the quantities sold, generated, and purchased.

(b) Under the 20-year economy energy PPA with the City of Gillette effective September 2014, Black Hills Wyoming purchases energy on behalf of the City of Gillette and sells that energy to the City of Gillette. MWh sold may not equal MWh generated and purchased due to a dispatch agreement Black Hills Wyoming has with South Dakota Electric to cover energy imbalances.

Contracted Power Plant Fleet Availability <sup>(a)</sup>	Three Months Ended June 30,		Six Months Ended June 30,	
	2020	2019	2020	2019
Coal-fired plant	98.2 %	95.8 %	93.7 %	95.3 %
Natural gas-fired plants <sup>(b)</sup>	99.7 %	88.7 %	99.6 %	92.1 %
Wind	93.1 %	94.1 %	94.0 %	92.3 %
<b>Total Availability</b>	<b>97.0 %</b>	<b>91.5 %</b>	<b>96.6 %</b>	<b>92.8 %</b>
<b>Wind Capacity Factor</b>	<b>27.5 %</b>	<b>23.1 %</b>	<b>28.9 %</b>	<b>25.7 %</b>

(a) Availability and Wind Capacity Factor are calculated using a weighted average based on capacity of our generating fleet.

(b) 2019 included a planned outage at Pueblo Airport Generation.

### Mining

	Three Months Ended June 30,			Six Months Ended June 30,		
	2020	2019	Variance	2020	2019	Variance
	(in thousands)					
Revenue	\$ 15,416	\$ 13,045	\$ 2,371	\$ 30,621	\$ 29,474	\$ 1,147
Operations and maintenance	9,732	9,175	557	19,558	19,088	470
Depreciation, depletion and amortization	2,326	2,230	96	4,576	4,409	167
Total operating expenses	12,058	11,405	653	24,134	23,497	637
Adjusted operating income	\$ 3,358	\$ 1,640	\$ 1,718	\$ 6,487	\$ 5,977	\$ 510

#### **Three Months Ended June 30, 2020 Compared to the Three Months Ended June 30, 2019:**

Current year revenue increased due to 29% higher tons sold driven primarily by prior year planned and unplanned facility outages partially offset by a 7% decrease in price per ton sold driven by contract price adjustments based on actual mining costs.

#### **Six Months Ended June 30, 2020 Compared to the Six Months Ended June 30, 2019:**

Current year revenue increased due to 7% higher tons sold driven primarily by prior year planned and unplanned facility outages partially offset by a 3% decrease in price per ton sold driven by contract price adjustments based on actual mining costs.

The following table provides certain operating statistics for our Mining segment (in thousands, except for Revenue per ton):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2020	2019	2020	2019
Tons of coal sold	972	754	1,868	1,751
Cubic yards of overburden moved	2,211	2,045	4,478	4,039
Revenue per ton	\$ 15.27	\$ 16.48	\$ 15.66	\$ 16.14

### Corporate and Other

	Three Months Ended June 30,			Six Months Ended June 30,		
	2020	2019	Variance	2020	2019	Variance
	(in thousands)					
Adjusted operating income (loss)	\$ (29)	\$ 102	\$ (131)	\$ 131	\$ (405)	\$ 536

#### **Consolidated Interest Expense, Impairment of Investment, Other Income (Expense) and Income Tax (Expense)**

	Three Months Ended June 30,			Six Months Ended June 30,		
	2020	2019	Variance	2020	2019	Variance
	(in thousands)			(in thousands)		
Interest expense, net	\$ (35,545)	\$ (34,264)	\$ (1,281)	\$ (70,998)	\$ (68,981)	\$ (2,017)
Impairment of investment	—	—	—	(6,859)	—	(6,859)
Other income (expense), net	(1,863)	263	(2,126)	490	(526)	1,016
Income tax (expense)	(4,831)	(2,307)	(2,524)	(20,833)	(19,570)	(1,263)

**Three Months Ended June 30, 2020 Compared to the Three Months Ended June 30, 2019.**

Interest expense, net

The increase in Interest expense, net for the three months ended June 30, 2020, compared to the same period in the prior year, was driven by higher debt balances partially offset by lower interest rates.

Other Income (Expense)

The variance in Other income (expense), net for the three months ended June 30, 2020, compared to the same period in the prior year, was primarily due to increased costs for our non-qualified benefit plans which were driven by market performance and increased non-service pension costs resulting from a change in accounting principle for our defined benefit pension plan effective January 1, 2020.

Income Tax (Expense)

For the three months ended June 30, 2020, the effective tax rate was 16.4% compared to 11.5% for the same period in 2019. The higher effective tax rate is primarily due to a prior year discrete tax benefit related to repair costs and certain indirect costs.

**Six Months Ended June 30, 2020 Compared to the Six Months Ended June 30, 2019.**

Interest expense, net

The increase in Interest expense, net for the six months ended June 30, 2020, compared to the same period in the prior year was driven by higher debt balances partially offset by lower interest rates.

Impairment of Investment

For the six months ended June 30, 2020, we recorded a pre-tax non-cash write-down of \$6.9 million in our investment in equity securities of a privately held oil and gas company. The impairment was triggered by continued adverse changes in future natural gas prices and liquidity concerns at the privately held oil and gas company. The remaining book value of our investment is \$1.5 million, and this is our only remaining investment in oil and gas exploration and production activities. See [Note 15](#) of the Notes to Condensed Consolidated Financial Statements for additional details.

Other Income (Expense)

The variance in Other income (expense), net for the six months ended June 30, 2020, compared to the same period in the prior year, was primarily due to reduced costs for our non-qualified benefit plans which are driven by market performance partially offset by increased non-service pension costs resulting from a change in accounting principle for our defined benefit pension plan effective January 1, 2020.

Income Tax (Expense)

For the six months ended June 30, 2020, the effective tax rate was 14.6% compared to 13.5% for the same period in 2019. The higher effective tax rate is primarily due to a prior year discrete tax benefit related to repair costs and certain indirect costs and a current year discrete tax adjustment related to the impairment of our investment in equity securities of a privately held oil and gas company partially offset by increased tax benefits from forecasted federal production tax credits associated with new wind assets.

## Critical Accounting Policies Involving Significant Accounting Estimates

There have been no material changes in our critical accounting estimates from those reported in our 2019 Annual Report on Form 10-K filed with the SEC except for Pension and Other Postretirement Benefits provided below. We continue to closely monitor the rapidly evolving and uncertain impact of COVID-19 on our critical accounting estimates including, but not limited to, collectibility of customer receivables, recoverability of regulatory assets, impairment risk of goodwill and long-lived assets, valuation of pension assets and liabilities, and contingent liabilities. For more information on our critical accounting estimates, see Part II, Item 7 of our 2019 Annual Report on Form 10-K.

### Pension and Other Postretirement Benefits

As described in Note 18 of the Notes to the Consolidated Financial Statements in our 2019 Annual Report on Form 10-K filed with the SEC, we have one defined benefit pension plan, one defined post-retirement healthcare plan and several non-qualified retirement plans. A Master Trust holds the assets for the pension plan. A trust for the funded portion of the post-retirement healthcare plan has also been established.

Accounting for pension and other postretirement benefit obligations involves numerous assumptions, the most significant of which relate to the discount rates, healthcare cost trend rates, expected return on plan assets, compensation increases, retirement rates and mortality rates. The determination of our obligation and expenses for pension and other postretirement benefits is dependent on the assumptions determined by management and used by actuaries in calculating the amounts. Although we believe our assumptions are appropriate, significant differences in our actual experience or significant changes in our assumptions may materially affect our pension and other postretirement obligations and our future expense.

Effective January 1, 2020, the Company changed its method of accounting for net periodic benefit cost. Prior to the change, the Company used a calculated value for determining market-related value of plan assets which amortized the effects of gains and losses over a five-year period. Effective with the accounting change, the Company will use a calculated value for the return-seeking assets (equities) in the portfolio and fair value for the liability-hedging assets (fixed income). The Company considers the fair value method for determining market-related value of liability-hedging assets to be a preferable method of accounting because asset-related gains and losses are subject to amortization into pension cost immediately. Additionally, the fair value for liability-hedging assets allows for the impact of gains and losses on this portion of the asset portfolio to be reflected in tandem with changes in the liability which is linked to changes in the discount rate assumption for re-measurement.

See [Note 12](#) of the Notes to Condensed Consolidated Financial Statements for additional information.

## Liquidity and Capital Resources

There have been no material changes in Liquidity and Capital Resources from those reported in Item 7 of our 2019 Annual Report on Form 10-K filed with the SEC except as described below and within the “COVID-19 Pandemic” discussion in the [Executive Summary](#) section above.

### Collateral Requirements

Our utilities maintain wholesale commodity contracts for the purchases and sales of electricity and natural gas which have performance assurance provisions that allow the counterparty to require collateral postings under certain conditions, including when requested on a reasonable basis due to a deterioration in our financial condition or nonperformance. A significant downgrade in our credit ratings, such as a downgrade to a level below investment grade, could result in counterparties requiring collateral postings under such adequate assurance provisions. The amount of credit support that we may be required to provide at any point in the future is dependent on the amount of the initial transaction, changes in the market price, open positions and the amounts owed by or to the counterparty. At June 30, 2020, we had sufficient liquidity to cover collateral that could be required to be posted under these contracts. For the six months ended June 30, 2020, we did not experience any requests to post additional collateral, including for concerns over a potential deterioration of our financial condition due to COVID-19.

**Cash Flow Activities**

The following table summarizes our cash flows for the six months ended June 30, (in millions):

Cash provided by (used in):	2020	2019	Variance
Operating activities	\$ 309.0	\$ 289.8	\$ 19.2
Investing activities	\$ (349.7)	\$ (317.3)	\$ (32.4)
Financing activities	\$ 62.8	\$ 13.6	\$ 49.2

**Year-to-Date 2020 Compared to Year-to-Date 2019**Operating Activities

Net cash provided by operating activities was \$309 million for the six months ended June 30, 2020, compared to net cash provided by operating activities of \$290 million for the same period in 2019, for an increase of \$19 million. The variance was primarily attributable to:

- Cash earnings (net income plus non-cash adjustments) were \$7.3 million higher for the six months ended June 30, 2020 compared to the same period in the prior year primarily driven by higher operating income at the Gas Utilities segment;
- Net cash inflows from changes in operating assets and liabilities were \$26 million for the six months ended June 30, 2020, compared to net cash inflows of \$14 million in the same period in the prior year. This \$12 million increase was primarily due to:
  - Cash inflows decreased by \$34 million primarily as a result of changes in accounts receivable driven by lower commodity prices and increased materials and supplies purchases;
  - Cash outflows decreased by \$44 million as a result of changes in accounts payable and accrued liabilities driven by the impact of lower commodity prices, lower employee costs, lower outside services expenses and other working capital requirements;
  - Cash inflows increased by \$12 million primarily as a result of changes in our regulatory assets and liabilities driven by timing of recovery from fuel costs adjustments and the TCJA tax rate change that was returned to customers in the prior year; and
  - Cash outflows increased by \$13 million due to the timing of pension contributions made in the current year.

Investing Activities

Net cash used in investing activities was \$350 million for the six months ended June 30, 2020, compared to net cash used in investing activities of \$317 million for the same period in 2019, for a variance of \$32 million. The variance was primarily attributable to:

- Capital expenditures of \$348 million for the six months ended June 30, 2020 compared to \$318 million for the same period in the prior year. Higher current year expenditures were driven by higher programmatic safety, reliability and integrity spending at our Gas Utilities and Electric Utilities segments and the Corriedale wind project at our Electric Utilities segment.

Financing Activities

Net cash provided by financing activities for the six months ended June 30, 2020 was \$63 million, compared to \$14 million of net cash provided by financing activities for the same period in 2019, an increase of \$49 million primarily due to the following:

- Cash dividends on common stock of \$66 million were paid in the current year compared to \$61 million paid in the prior year;
- Increase of \$28 million in common stock issued due primarily to current year net proceeds of \$99 million through an underwritten registered transaction partially offset by prior year net proceeds of \$69 million through our ATM;
- \$266 million of higher repayments of short-term debt;
- Increase of \$297 million in net proceeds due to issuances of long-term debt in excess of maturities; and
- Cash outflows for other financing activities increased \$4.5 million driven primarily by current year financing costs in the June 17, 2020 debt offering.

**Dividends**

Dividends paid on our common stock totaled \$66 million for the six months ended June 30, 2020, or \$0.535 per share per quarter. On July 27, 2020, our board of directors declared a quarterly dividend of \$0.535 per share payable September 1, 2020, equivalent to an annual dividend of \$2.14 per share. The amount of any future cash dividends to be declared and paid, if any, will depend upon, among other things, our financial condition, funds from operations, the level of our capital expenditures, restrictions under our Revolving Credit Facility and our future business prospects.

**Financing Transactions and Short-Term Liquidity**

Revolving Credit Facility and CP Program

Our Revolving Credit Facility and CP Program had the following borrowings, outstanding letters of credit, and available capacity (in millions):

Credit Facility	Expiration	Current Capacity	Revolver Borrowings at June 30, 2020	CP Program Borrowings at June 30, 2020	Letters of Credit <sup>(a)</sup> at June 30, 2020	Available Capacity at June 30, 2020
Revolving Credit Facility and CP Program	July 30, 2023	\$ 750	\$ —	\$ —	\$ 12	\$ 738

(a) Letters of credit are off-balance sheet commitments that reduce the borrowing capacity available on our corporate Revolving Credit Facility.

Revolving Credit Facility and CP Program borrowing activity for the six months ended June 30, 2020 was (dollars in millions):

	For the Six Months Ended June 30, 2020
Maximum amount outstanding - Revolving Credit Facility (based on daily outstanding balances)	\$ 220
Maximum amount outstanding - CP Program (based on daily outstanding balances)	\$ 366
Average amount outstanding - Revolving Credit Facility (based on daily outstanding balances)	\$ 109
Average amount outstanding - CP Program (based on daily outstanding balances)	\$ 243
Weighted average interest rates - Revolving Credit Facility	1.75 %
Weighted average interest rates - CP Program	1.48 %

## Covenant Requirements

The Revolving Credit Facility contains customary affirmative and negative covenants, such as limitations on certain liens, restrictions on certain transactions, and maintenance of a certain Consolidated Indebtedness to Capitalization Ratio. Subject to applicable cure periods, a violation of any of these covenants would constitute an event of default that entitles the lenders to terminate their remaining commitments and accelerate all principal and interest outstanding. We were in compliance with these covenants as of June 30, 2020. See [Note 7](#) of the Notes to Condensed Consolidated Financial Statements for more information.

Covenants within Wyoming Electric's financing agreements require Wyoming Electric to maintain a debt to capitalization ratio of no more than 0.60 to 1.00. As of June 30, 2020, we were in compliance with these covenants.

## Financing Activities

See Notes [7](#) and [8](#) of the Notes to Condensed Consolidated Financial Statements for information concerning significant financing activities for the six months ended June 30, 2020.

## Future Financing Plans

We will continue to assess debt and equity needs to support our capital expenditure plan.

## **Credit Ratings**

After assessing the current operating performance, liquidity and the credit ratings of the Company, management believes that the Company will have access to the capital markets at prevailing market rates for companies with comparable credit ratings.

The following table represents the credit ratings and outlook and risk profile of BHC at June 30, 2020:

<b>Rating Agency</b>	<b>Senior Unsecured Rating</b>	<b>Outlook</b>
S&P <sup>(a)</sup>	BBB+	Stable
Moody's <sup>(b)</sup>	Baa2	Stable
Fitch <sup>(c)</sup>	BBB+	Stable

(a) On April 10, 2020, S&P affirmed our BBB+ rating and maintained a Stable outlook.

(b) On December 20, 2019, Moody's affirmed our Baa2 rating and maintained a Stable outlook.

(c) On August 29, 2019, Fitch affirmed our BBB+ rating and maintained a Stable outlook.

The following table represents the credit ratings of South Dakota Electric at June 30, 2020:

<b>Rating Agency</b>	<b>Senior Secured Rating</b>
S&P <sup>(a)</sup>	A
Moody's <sup>(b)</sup>	A1
Fitch <sup>(c)</sup>	A

(a) On April 16, 2020, S&P affirmed A rating.

(b) On December 20, 2019, Moody's affirmed A1 rating.

(c) On August 29, 2019, Fitch affirmed A rating.

**Capital Requirements**Capital Expenditures

Capital Expenditures by Segment <i>(in millions)</i>	Actual	Planned	Planned	Planned	Planned	Planned
	Six Months Ended June 30, 2020 <sup>(a)</sup>	2020 <sup>(b)</sup>	2021	2022	2023	2024
Electric Utilities	\$ 117	\$ 246	\$ 203	\$ 170	\$ 137	\$ 152
Gas Utilities	209	391	309	285	316	293
Power Generation	6	7	9	11	6	6
Mining	6	8	12	9	9	9
Corporate and Other	10	17	22	11	12	10
	<u>\$ 348</u>	<u>\$ 669</u>	<u>\$ 555</u>	<u>\$ 486</u>	<u>\$ 480</u>	<u>\$ 470</u>

(a) Expenditures for the six months ended June 30, 2020 include the impact of accruals for property, plant and equipment.

(b) Includes actual capital expenditures for the six months ended June 30, 2020.

We are monitoring supply chains, including lead times for key materials and supplies, availability of resources, and statuses of large capital projects. To date, there have been limited impacts from COVID-19 on supply chains including the availability of supplies and materials and lead times. Capital projects are ongoing without material disruption to schedules. Our third party resources continue to support our business plans without disruption. Contingency plans are ready to be executed if significant disruption to supply chain occurs; however, we currently do not anticipate a significant impact from COVID-19 on our capital investment plan for 2020.

**Contractual Obligations**

There have been no significant changes in contractual obligations from those previously disclosed in Note 19 of our Notes to the Consolidated Financial Statements in our 2019 Annual Report on Form 10-K except for the items described in [Note 13](#) of the Notes to Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q.

**Off-Balance Sheet Commitments**

There have been no significant changes to off-balance sheet commitments from those previously disclosed in Item 7 of our 2019 Annual Report on Form 10-K filed with the SEC except for the items described in [Note 7](#) of the Notes to Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q.

**New Accounting Pronouncements**

Other than the pronouncements reported in our 2019 Annual Report on Form 10-K filed with the SEC and those discussed in [Note 1](#) of the Notes to Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q, there have been no new accounting pronouncements that are expected to have a material effect on our financial position, results of operations, or cash flows.

## FORWARD-LOOKING INFORMATION

This Quarterly Report on Form 10-Q contains forward-looking statements as defined by the SEC. Forward-looking statements are all statements other than statements of historical fact, including, without limitation, those statements that are identified by the words “anticipates,” “estimates,” “expects,” “intends,” “plans,” “predicts” and similar expressions and include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements that are other than statements of historical facts. From time to time, the Company may publish or otherwise make available forward-looking statements of this nature, including statements contained within Item 2 - Management’s Discussion and Analysis of Financial Condition and Results of Operations.

Forward-looking statements involve risks and uncertainties, which could cause actual results or outcomes to differ materially from those expressed. The Company’s expectations, beliefs and projections are expressed in good faith and are believed by the Company to have a reasonable basis, including, without limitation, management’s examination of historical operating trends, data contained in the Company’s records and other data available from third parties. Nonetheless, the Company’s expectations, beliefs or projections may not be achieved or accomplished.

Any forward-looking statement contained in this document speaks only as of the date the statement was made. The Company undertakes no obligation to update any forward-looking statement or statements to reflect events or circumstances that occur after the date on which the statement was made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, such as the COVID-19 pandemic, and it is not possible for management to predict all of the factors, nor can it assess the effect of each factor on the Company’s business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statement. All forward-looking statements, whether written or oral and whether made by or on behalf of the Company, are expressly qualified by the risk factors and cautionary statements described in our 2019 Annual Report on Form 10-K including statements contained within Item 1A - Risk Factors of our 2019 Annual Report on Form 10-K, Part II, [Item 1A](#) of this Quarterly Report on Form 10-Q and other reports that we file with the SEC from time to time.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Information regarding our quantitative and qualitative disclosures about market risk is disclosed in Item 7A of our Annual Report on Form 10-K. See [Note 9](#) of the Notes to Condensed Consolidated Financial Statements for updates to market risks during the six months ended June 30, 2020.

### ITEM 4. CONTROLS AND PROCEDURES

Our Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) as of June 30, 2020. Based on their evaluation, they have concluded that our disclosure controls and procedures were effective at June 30, 2020.

Our disclosure controls and procedures are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

#### Changes in Internal Control over Financial Reporting

During the quarter ended June 30, 2020, there have been no changes in our internal controls over financial reporting that have materially affected or are reasonably likely to materially affect our internal control over financial reporting. Although we have altered some work routines due to the COVID-19 pandemic, the changes in our work environment (i.e. remote work arrangements) have not materially impacted our internal controls over financial reporting and have not adversely affected the Company’s ability to maintain operations, including financial reporting systems, ICFR, and disclosure controls and procedures.

## PART II. OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

For information regarding legal proceedings, see Note 19 in Item 8 of our 2019 Annual Report on Form 10-K and [Note 13](#) in Item 1 of Part I of this Quarterly Report on Form 10-Q, which information from [Note 13](#) is incorporated by reference into this item.

### ITEM 1A. RISK FACTORS

There are no material changes to the risk factors previously disclosed in Item 1A of Part I in our 2019 Annual Report on Form 10-K filed with the SEC except as shown below:

#### **Our business, results of operations, financial condition and cash flows could be adversely affected by the recent coronavirus (COVID-19) pandemic.**

We have responded to the global pandemic of COVID-19 by taking steps to mitigate the potential risks to us posed by its spread.

For the six months ended June 30, 2020, the COVID-19 pandemic had a limited financial impact on our business, operations, financial condition and cash flows. In particular, we experienced:

- Lower commercial and certain industrial and transport volumes partially offset by higher electric and natural gas residential usage;
- Increased allowance for credit losses and bad debt expense due to anticipated customer non-payment as a result of suspended disconnections;
- Minimal cash flow impacts from delayed payments from residential, commercial and industrial customers;
- Minimal disruptions receiving the materials and supplies necessary to maintain operations and continue executing our capital investment plan;
- Reduced availability and productivity of our employees;
- Minimal impacts to the availability of our third-party resources;
- Minimal decline in the funded status of our pension plan;
- Increased costs for personal protection equipment and cleaning supplies;
- Increased costs due to sequestration of mission-critical and essential employees;
- Minimal interest expense increase due to disruptions in the Commercial Paper markets; and
- Reduced training, travel and outside services expenses.

Should the COVID-19 pandemic continue for a prolonged period or impact the areas we serve more significantly than it has to date, our business, operations, financial condition and cash flows could be impacted in more significant ways. In addition to exacerbating the impacts described above, we could experience:

- Adverse impacts on our strategic business plans, growth strategy and capital investment plans;
- Increased adverse impacts to electricity and natural gas demand from our customers, particularly from commercial and industrial customers;
- Further reduction in the availability and productivity of our employees and third-party resources;
- Increased costs as a result of our emergency measures;
- Increased allowance for credit losses and bad debt expense as a result of delayed or non-payment from our customers, both of which could be magnified by Federal or state government legislation that requires us to extend suspensions of disconnections for non-payment;
- Delays and disruptions in the availability, timely delivery and cost of materials and components used in our operations;
- Disruptions in the commercial operation dates of certain projects impacting qualification criteria for certain tax credits and triggering potential damages under our power purchase agreements;
- Deterioration of the credit quality of our counterparties, including gas commodity contract counterparties, power purchase agreement counterparties, contractors or retail customers, that could result in credit losses;
- Impairment of goodwill or long-lived assets;
- Adverse impacts on our ability to develop, construct and operate facilities;
- Inability to meet the requirements of the covenants in our existing credit facilities, including covenants regarding Consolidated Indebtedness to Capitalization Ratio;
- Deterioration in our financial metrics or the business environment that adversely impacts our credit ratings;

- Delay in the permitting process of certain development projects, affecting the timing of final investment decisions and start dates of construction;
- Adverse impact on our liquidity position and cost of and ability to access funds from financial institutions and capital markets;
- Delays in our ability to change rates through regulatory proceedings; and
- Other risks that impact us, such as the risks described in the “Risk Factors” section of our 2019 Annual Report on Form 10-K and our ability to meet our financial obligations.

To date, we have experienced limited impacts to our results of operations, financial condition, cash flows or business plans. However, the situation remains fluid and it is difficult to predict with certainty the potential impact of COVID-19 on our business, results of operations, financial condition and cash flows.

#### ITEM 4. MINE SAFETY DISCLOSURES

Information concerning mine safety violations or other regulatory matters required by Sections 1503(a) of Dodd-Frank is included in [Exhibit 95](#) of this Quarterly Report on Form 10-Q.

#### ITEM 6. EXHIBITS

<b>Exhibit Number</b>	<b>Description</b>
Exhibit 3.1*	<a href="#">Restated Articles of Incorporation of the Registrant dated January 30, 2018 (filed as Exhibit 3 to the Registrant’s Form 8-K filed on February 5, 2018).</a>
Exhibit 3.2*	<a href="#">Amended and Restated Bylaws of the Registrant dated April 24, 2017 (filed as Exhibit 3 to the Registrant’s Form 8-K filed on April 28, 2017).</a>
Exhibit 4.1*	<a href="#">Indenture dated as of May 21, 2003 between the Registrant and Wells Fargo Bank, National Association (as successor to LaSalle Bank National Association), as Trustee (filed as Exhibit 4.1 to the Registrant’s Form 10-Q for the quarterly period ended June 30, 2003).</a> <a href="#">First Supplemental Indenture dated as of May 21, 2003 (filed as Exhibit 4.2 to the Registrant’s Form 10-Q for the quarterly period ended June 30, 2003).</a> <a href="#">Second Supplemental Indenture dated as of May 14, 2009 (filed as Exhibit 4 to the Registrant’s Form 8-K filed on May 14, 2009).</a> <a href="#">Third Supplemental Indenture dated as of July 16, 2010 (filed as Exhibit 4 to Registrant’s Form 8-K filed on July 15, 2010).</a> <a href="#">Fourth Supplemental Indenture dated as of November 19, 2013 (filed as Exhibit 4 to the Registrant’s Form 8-K filed on November 18, 2013).</a> <a href="#">Fifth Supplemental Indenture dated as of January 13, 2016 (filed as Exhibit 4.1 to the Registrant’s Form 8-K filed on January 13, 2016).</a> <a href="#">Sixth Supplemental Indenture dated as of August 19, 2016 (filed as Exhibit 4.1 to the Registrant’s Form 8-K filed on August 19, 2016).</a> <a href="#">Seventh Supplemental Indenture dated as of August 17, 2018 (filed as Exhibit 4.2 to the Registrant’s Form 8-K filed on August 17, 2018).</a> <a href="#">Eighth Supplemental Indenture dated as of October 3, 2019 (filed as Exhibit 4.1 to the Registrant’s Form 8-K filed on October 4, 2019).</a> <a href="#">Ninth Supplemental Indenture dated as of June 17, 2020 (filed as Exhibit 4.1 to the Registrant’s Form 8-K filed on June 17, 2020).</a>
Exhibit 4.2*	<a href="#">Restated and Amended Indenture of Mortgage and Deed of Trust of Black Hills Corporation (now called Black Hills Power, Inc.) dated as of September 1, 1999 (filed as Exhibit 4.19 to the Registrant’s Post-Effective Amendment No. 1 to the Registrant’s Registration Statement on Form S-3 (No. 333-150669)).</a> <a href="#">First Supplemental Indenture, dated as of August 13, 2002, between Black Hills Power, Inc. and The Bank of New York Mellon (as successor to JPMorgan Chase Bank), as Trustee (filed as Exhibit 4.20 to the Registrant’s Post-Effective Amendment No. 1 to the Registrant’s Registration Statement on Form S-3 (No. 333-150669)).</a> <a href="#">Second Supplemental Indenture, dated as of October 27, 2009, between Black Hills Power, Inc. and The Bank of New York Mellon (filed as Exhibit 4.21 to the Registrant’s Post-Effective Amendment No. 2 to the Registrant’s Registration Statement on Form S-3 (No. 333-150669)).</a>

[Third Supplemental Indenture, dated as of October 1, 2014, between Black Hills Power, Inc. and The Bank of New York Mellon \(filed as Exhibit 10.1 to the Registrant's Form 8-K filed on October 2, 2014\).](#)

Exhibit 4.3*	<a href="#"><u>Restated Indenture of Mortgage, Deed of Trust, Security Agreement and Financing Statement, amended and restated as of November 20, 2007, between Cheyenne Light, Fuel and Power Company and Wells Fargo Bank, National Association (filed as Exhibit 10.2 to the Registrant's Form 8-K filed on October 2, 2014).</u></a> <a href="#"><u>First Supplemental Indenture, dated as of September 3, 2009, between Cheyenne Light, Fuel and Power Company and Wells Fargo Bank, National Association (filed as Exhibit 10.3 to the Registrant's Form 8-K filed on October 2, 2014).</u></a> <a href="#"><u>Second Supplemental Indenture, dated as of October 1, 2014, between Cheyenne Light, Fuel and Power Company and Wells Fargo Bank, National Association (filed as Exhibit 10.4 to the Registrant's Form 8-K filed on October 2, 2014).</u></a>

**CERTIFICATION**

I, Linden R. Evans, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Black Hills Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Senior Vice President and Chief Financial Officer

Information concerning mine safety violations or other regulatory matters required by Sections 1503(a) of Dodd-Frank is included below.

### Mine Safety and Health Administration Safety Data

Safety is a core value at Black Hills Corporation and at each of its subsidiary operations. We have in place a comprehensive safety program that includes extensive health and safety training for all employees, site inspections, emergency response preparedness, crisis communications training, incident investigation, regulatory compliance training and process auditing, as well as an open dialogue between all levels of employees. The goals of our processes are to eliminate exposure to hazards in the workplace, ensure that we comply with all mine safety regulations, and support regulatory and industry efforts to improve the health and safety of our employees along with the industry as a whole.

Under the Dodd-Frank Act, each operator of a coal or other mine is required to include certain mine safety results in its periodic reports filed with the SEC. Our mining operation, consisting of Wyodak Coal Mine, is subject to regulation by the federal Mine Safety and Health Administration ("MSHA") under the Federal Mine Safety and Health Act of 1977 (the "Mine Act"). Below we present the following information regarding certain mining safety and health matters for the three month period ended June 30, 2020. In evaluating this information, consideration should be given to factors such as: (i) the number of citations and orders will vary depending on the size of the coal mine, (ii) the number of citations issued will vary from inspector to inspector and mine to mine, and (iii) citations and orders can be contested and appealed, and in that process, are often reduced in severity and amount, and are sometimes dismissed. The information presented includes:

- Total number of violations of mandatory health and safety standards that could significantly and substantially contribute to the cause and effect of a coal or other mine safety or health hazard under section 104 of the Mine Act for which we have received a citation from MSHA;
- Total number of orders issued under section 104(b) of the Mine Act;
- Total number of citations and orders for unwarrantable failure of the mine operator to comply with mandatory health and safety standards under section 104(d) of the Mine Act;
- Total number of imminent danger orders issued under section 107(a) of the Mine Act; and
- Total dollar value of proposed assessments from MSHA under the Mine Act.

The table below sets forth the total number of citations and/or orders issued by MSHA to WRDC under the indicated provisions of the Mine Act, together with the total dollar value of proposed MSHA assessments received during the three months ended June 30, 2020 and legal actions pending before the Federal Mine Safety and Health Review Commission, together with the Administrative Law Judges thereof, for WRDC, our only mining complex. All citations were abated within 24 hours of issue.
