### **Black Hills Corporation**

We are a diversified energy company. Our predecessor company, Black Hills Power and Light Company was incorporated and began providing electric utility service in 1941 and began selling and marketing various forms of energy on an unregulated basis in 1956. We operate principally in the United States with two major business groups: retail services and wholesale energy.

In 2006, our retail services group conducted business in two segments: electric utility and combination electric and gas utility. Our retail services group consists of our regulated electric utility, Black Hills Power, Inc., as well as our regulated combination electric and gas utility, Cheyenne Light, Fuel and Power Company, or Cheyenne Light.

Black Hills Power is engaged in the generation, transmission and distribution of electricity to approximately 64,200 customers in an approximately 9,300 square mile service territory in western South Dakota, northeastern Wyoming and southeastern Montana. Black Hills Power also sells electric energy and capacity on a wholesale, or “off-system,” basis. Black Hills Power’s transmission system consists of approximately 447 miles of high-voltage transmission of greater than 69 kilovolts, and 420 miles of lower voltage transmission. In addition, Black Hills Power jointly owns another 47 miles of high voltage lines with Basin Electric Cooperative.

Cheyenne Light serves approximately 38,900 electric customers in Cheyenne, Wyoming and vicinity, and serves approximately 32,600 natural gas customers in the City of Cheyenne and Laramie County, Wyoming.

Our wholesale energy group, which operates through our subsidiary Black Hills Energy and its subsidiaries, conducts business in four segments:

- **Oil and Gas.** Black Hills Exploration and Production, Inc., or BHEP, and its subsidiaries acquire and develop natural gas and crude oil properties and produce natural gas and crude oil, primarily in the Rocky Mountain region of the United States.
- **Power Generation.** Black Hills Generation, Inc., and its subsidiaries and Black Hills Wyoming, Inc., produce and sell electric capacity and energy through a diversified portfolio of generating plants in the Rocky Mountain and Western regions of the United States.
- **Coal Mining.** Wyodak Resources Development Corporation mines and sells coal at our coal mine located near Gillette, Wyoming.
- **Energy Marketing.** Enserco Energy, Inc. is engaged in the marketing of natural gas and crude oil, primarily in the Western and Mid-continent regions of the United States and in Canada.

Our oil and gas segment, which operates through BHEP and its subsidiaries, acquires, explores, develops and produces natural gas and crude oil. As of December 31, 2006, we held operated interests in oil and gas properties totaling approximately 625 gross and 571 net wells located in the San Juan Basin of New Mexico and Colorado, the Powder River and Big Horn Basins of Wyoming, the Piceance Basin of Colorado, and the Denver Julesberg Basin of Colorado and Nebraska. In our San Juan and Piceance Basin operations, we also own and operate natural gas gathering pipeline systems along with associated gas compression and treating facilities. As of December 31, 2006, we also held non-operated interests in oil and natural gas properties totaling approximately 511 gross and 71 net wells located in California, Colorado, Louisiana, Montana, North Dakota, Oklahoma, Texas and Wyoming.

We also own a 44.7% interest in the Newcastle gas processing plant and associated gathering system located in Weston County, Wyoming. The Newcastle plant is adjacent to our producing properties in that area and our production accounts for the majority of the throughput at the Newcastle plant. The Newcastle plant is operated by Anadarko, Inc.

Our power generation segment acquires, develops and operates unregulated power plants. We currently hold varying interests in independent power plants in Colorado, Nevada, Wyoming, California and Idaho with a total net ownership of 978 megawatts as of December 31, 2006. We also hold minority interests in several power-related funds with a net ownership interest of 11 megawatts.

Our coal mining segment, which operates through our Wyodak Resources Development Corp. subsidiary, mines and processes low-sulfur, sub-bituminous coal at our Wyodak coal mine located in the Powder River Basin near Gillette, Wyoming.

We market natural gas and crude oil in specific regions of the United States and Canada through our energy marketing segment. Our energy marketing operations are headquartered in Golden, Colorado, with a satellite sales office in Calgary, Alberta, Canada. We offer physical and financial wholesale energy marketing and offer storage and transportation services as well as price risk management products and services to a variety of customers, including natural gas distribution companies, municipalities, industrial users, oil and gas producers, electric utilities, other energy marketers and retail gas users.

We are a South Dakota corporation. Our common stock is listed on the New York Stock Exchange under the symbol "BKH." Our principal and executive offices are located at 625 Ninth Street, Rapid City, South Dakota 57709-1400 and our telephone number is (605) 721-1700. #### **PLAN OF DISTRIBUTION**

The selling stockholders and their successors, including their transferees, pledgees or donees or their successors, may sell the common stock directly to purchasers or through underwriters, broker-dealers or agents, who may receive compensation in the form of discounts, concessions or commissions from the selling stockholders or the purchasers. These discounts, concessions or commissions as to any particular underwriter, broker-dealer or agent may be in excess of those customary in the types of transactions involved. The common stock may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of sale, at prices related to the prevailing market prices, at varying prices determined at the time of sale, or at negotiated prices. These sales may be effected in transactions:

- that may involve crosses or block transactions;
- on any national securities exchange or U.S. inter-dealer system of a registered national securities association on which the common stock may be listed or quoted at the time of sale;

- in the over-the-counter market;
- in transactions otherwise than on these exchanges or systems or in the over-the-counter market;
- through the writing of options, whether the options are listed on an options exchange or otherwise;
- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- short sales;
- broker-dealers may agree with the selling stockholders to sell a specified number of the shares at a stipulated price per share;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

We may also sell shares under Rule 144 of the Securities Act of 1933, as amended, without using this prospectus supplement or the accompanying prospectus.

In connection with the sale of the common stock, the selling stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the common stock in the course of hedging the positions they assume. The selling stockholders may also sell the common stock short and deliver these securities to close out their short positions and to return borrowed shares in connection with such short sales, or loan or pledge the common stock to broker-dealers that in turn may sell these securities.

The selling stockholders may pledge or grant a security interest in some or all of the shares of common stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock from time to time pursuant to this prospectus supplement or any amendment to this prospectus supplement under Rule 424(b)(3) or other applicable provision of the Securities Act, amending, if necessary, the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus supplement. The selling stockholders also may transfer and donate the shares of common stock in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus supplement.

We have agreed to bear expenses in connection with the preparation and filing of the registration statement of which this prospectus supplement forms a part. However, the selling stockholders will bear any fees or expenses related to any applicable underwriting discounts or commissions, brokers' fees and similar selling expenses, and any other fees and expenses incurred by the selling stockholders.

The selling stockholders will act independently of us in making decisions with respect to the timing, manner and size of each sale. The net proceeds to the selling stockholders from the sale of the common stock offered by them will be the purchase price of the common stock less discounts and commissions, if any. Each of the selling stockholders reserves the right to accept and, together with their agents from time to time, to reject, in whole or in part, any proposed purchase of common stock to be made directly or through agents. We will not receive any of the proceeds from the sale by the selling stockholders of the common stock.

Our outstanding common stock is listed for trading on the New York Stock Exchange. In order to comply with the securities laws of some states, if applicable, the common stock may be sold in these jurisdictions only through registered or licensed brokers or dealers. In addition, in some states the common stock may not be sold unless they have been registered or qualified for sale or an exemption from registration or qualification requirements is available and is complied with.

The selling stockholders and any underwriters, broker-dealers or agents that participate in the sale of the common stock may be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act. As a result, any profits on the sale of the common stock by selling stockholders who are, or are deemed to be, underwriters and any discounts, commissions or concessions received by any such broker-dealers or agents who are, or are deemed to be, underwriters may be deemed to be underwriting discounts or commissions under the Securities Act. At the time a particular offering of the shares of common stock is made, a prospectus supplement, if required, will be distributed which will set forth the aggregate amount of shares of common stock being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling stockholders and any discounts, commissions or concessions allowed or reallocated or paid to broker-dealers.

Selling stockholders will be subject to the prospectus delivery requirements of the Securities Act unless an exemption therefrom is available.

There can be no assurance that any selling stockholder will sell any or all of the shares of common stock registered pursuant to the registration statement, of which this prospectus supplement forms a part.

The selling stockholders and any other person participating in such distribution will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder, including, without limitation, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares of common stock by the selling stockholders and any other participating person. Regulation M may also restrict the ability of any person engaged in the distribution of the shares of common stock to engage in market-making activities with respect to the shares of common stock. All of the foregoing may affect the marketability of the shares of common stock and the ability of any person or entity to engage in market-making activities with respect to the shares of common stock.

Once sold under the registration statement, of which this prospectus supplement forms a part, the shares of common stock will be freely tradable in the hands of persons other than our affiliates.

We have agreed to indemnify the selling stockholders and their underwriters, if any, against certain liabilities including liabilities under the Securities Act.

## BLACK HILLS CORPORATION

We are a diversified energy company. Our predecessor company, Black Hills Power and Light Company was incorporated and began providing electric utility service in 1941 and began selling and marketing various forms of energy on an unregulated basis in 1956. We operate principally in the United States with two major business groups: retail services and wholesale energy.

In 2006, our retail services group conducted business in two segments: electric utility and combination electric and gas utility. Our retail services group consists of our regulated electric utility, Black Hills Power, Inc., as well as our regulated combination electric and gas utility, Cheyenne Light, Fuel and Power Company, or Cheyenne Light.

Black Hills Power is engaged in the generation, transmission and distribution of electricity to approximately 64,200 customers in an approximately 9,300 square mile service territory in western South Dakota, northeastern Wyoming and southeastern Montana. Black Hills Power also sells electric energy and capacity on a wholesale, or "off-system," basis. Black Hills Power's transmission system consists of approximately 447 miles of high-voltage transmission of greater than 69 kilovolts, and 420 miles of lower voltage transmission. In addition, Black Hills Power jointly owns another 47 miles of high voltage lines with Basin Electric Cooperative.

Cheyenne Light serves approximately 38,900 electric customers in Cheyenne, Wyoming and vicinity, and serves approximately 32,600 natural gas customers in the City of Cheyenne and Laramie County, Wyoming.

Our wholesale energy group, which operates through our subsidiary Black Hills Energy and its subsidiaries, conducts business in four segments:

- **Oil and Gas.** Black Hills Exploration and Production, Inc., or BHEP, and its subsidiaries acquire and develop natural gas and crude oil properties and produce natural gas and crude oil, primarily in the Rocky Mountain region of the United States.
- **Power Generation.** Black Hills Generation, Inc., and its subsidiaries and Black Hills Wyoming, Inc., produce and sell electric capacity and energy through a diversified portfolio of generating plants in the Rocky Mountain and Western regions of the United States.
- **Coal Mining.** Wyodak Resources Development Corporation mines and sells coal at our coal mine located near Gillette, Wyoming.
- **Energy Marketing.** Enserco Energy, Inc. is engaged in the marketing of natural gas and crude oil, primarily in the Western and Mid-continent regions of the United States and in Canada.

Our oil and gas segment, which operates through BHEP and its subsidiaries, acquires, explores, develops and produces natural gas and crude oil. As of December 31, 2006, we held operated interests in oil and gas properties totaling approximately 625 gross and 571 net wells located in the San Juan Basin of New Mexico and Colorado, the Powder River and Big Horn Basins of Wyoming, the Piceance Basin of Colorado, and the Denver Julesberg Basin of Colorado and Nebraska. In our San Juan and Piceance Basin operations, we also own and operate natural gas gathering pipeline systems along with associated gas compression and treating facilities. As of December 31, 2006, we also held non-operated interests in oil and natural gas properties totaling approximately 511 gross and 71 net wells located in California, Colorado, Louisiana, Montana, North Dakota, Oklahoma, Texas and Wyoming.

We also own a 44.7% interest in the Newcastle gas processing plant and associated gathering system located in Weston County, Wyoming. The Newcastle plant is adjacent to our producing properties in that area and our production accounts for the majority of the throughput at the Newcastle plant. The Newcastle plant is operated by Anadarko, Inc.

Our power generation segment acquires, develops and operates unregulated power plants. We currently hold varying interests in independent power plants in Colorado, Nevada, Wyoming, California and Idaho with a total net ownership of 978 megawatts as of December 31, 2006. We also hold minority interests in several power-related funds with a net ownership interest of 11 megawatts.

Our coal mining segment, which operates through our Wyodak Resources Development Corp. subsidiary, mines and processes low-sulfur, sub-bituminous coal at our Wyodak coal mine located in the Powder River Basin near Gillette, Wyoming.

We market natural gas and crude oil in specific regions of the United States and Canada through our energy marketing segment. Our energy marketing operations are headquartered in Golden, Colorado, with a satellite sales office in Calgary, Alberta, Canada. We offer physical and financial wholesale energy marketing and offer storage and transportation services as well as price risk management products and services to a variety of customers, including natural gas distribution companies, municipalities, industrial users, oil and gas producers, electric utilities, other energy marketers and retail gas users.

## USE OF PROCEEDS

Unless otherwise indicated in the applicable prospectus supplement, we will not receive any proceeds from the sale of shares of our common stock by any selling stockholder named in such prospectus supplement.

## DESCRIPTION OF COMMON STOCK

### General

Our authorized capital stock consists of 100,000,000 shares of common stock, par value \$1.00, and 25,000,000 shares of preferred stock, without par value. As of January 31, 2007, 33,406,299 shares of common stock and no shares of preferred stock were outstanding.

### Common Stock

The holders of our common stock are entitled to one vote for each share held of record on all matters submitted to a vote of shareholders. Holders may use cumulative voting for the election of directors. Subject to preferences that may be applicable to any outstanding series of preferred stock, holders of our common stock are entitled to receive equally dividends as they may be declared by our board of directors out of funds legally available for the payment of dividends. In the event of our liquidation or dissolution, holders of our common stock are entitled to share equally in all assets remaining after payment of liabilities and the liquidation preference of any outstanding series of preferred stock.

Holders of our common stock have no preemptive rights and have no rights to convert their common stock into any other securities. All of the outstanding shares of our common stock are, and the shares of common stock we sell in any offering will be, duly authorized, validly issued, fully paid and nonassessable.

### Preferred Stock

Our board of directors has the authority, without further action by our shareholders, to issue shares of undesignated preferred stock from time to time in one or more series and to fix the related number of shares and the designations, voting powers, preferences, optional and other special rights, and restrictions or qualifications of that preferred stock. The rights, preferences, privileges and restrictions or qualifications of different series of preferred stock may differ from common stock and other series of preferred stock with respect to dividend rates, amounts payable on liquidation, voting rights, conversion rights, redemption provisions, sinking fund provisions and other matters. The issuance of additional series of preferred stock could:

- decrease the amount of earnings and assets available for distribution to holders of common stock;
- adversely affect the rights and powers, including voting rights, of holders of common stock; and;
- have the effect of delaying, deferring or preventing a change in control.

### Anti-Takeover Effects of South Dakota Law and Provisions of Our Charter and Bylaws

South Dakota law and our articles of incorporation and bylaws contain certain provisions that may be characterized as anti-takeover provisions. These provisions may make it more difficult to acquire control of us or remove our management.

### ***Control Share Acquisitions***

The control share acquisition provisions of the South Dakota Domestic Public Corporation Takeover Act provide generally that the shares of a publicly held South Dakota corporation acquired by a person that exceed the thresholds of voting power described below will have the same voting rights as other shares of the same class or series only if approved by:

- the affirmative vote of the majority of all outstanding shares entitled to vote, including all shares held by the acquiring person; and
- the affirmative vote of the majority of all outstanding shares entitled to vote, excluding all interested shares.

Each time an acquiring person reaches a threshold, an election must be held as described above before the acquiring person will have any voting rights with respect to shares in excess of such threshold. The thresholds which require shareholder approval before voting powers are obtained with respect to shares acquired in excess of such thresholds are 20%, 33 1/3% and 50%, respectively. We have elected in our articles of incorporation not to be subject to these provisions of South Dakota law.

### ***Business Combinations***

We are subject to the provisions of Section 47-33-17 of the South Dakota Domestic Public Corporation Takeover Act. In general, Section 47-33-17 prohibits a publicly held South Dakota corporation from engaging in a “business combination” with an “interested shareholder”, unless the business combination or the transaction in which the person became an interested shareholder is approved in a prescribed manner. Unless the interested shareholder has been an interested shareholder for at least four years, a business combination with the interested shareholder must be approved by the board of directors of the corporation prior to the date of the interested shareholder’s acquisition of the corporation’s voting stock, by the affirmative vote of all of the holders of all of the outstanding voting shares, or, under some circumstances, by the affirmative vote of the holders of a majority of the outstanding voting shares exclusive of those shares beneficially owned by the interested shareholder or any of its affiliates or associates. After the four year period has elapsed, the business combination must still be approved, if not previously approved in the manner prescribed, by the affirmative vote of the holders of a majority of the outstanding voting shares exclusive, in some instances, of those shares beneficially owned by the interested shareholder or any of its affiliates or associates. Generally, an “interested shareholder” is a person who, together with affiliates and associates, beneficially owns, directly or indirectly, 10% or more of the corporation’s voting stock. A “business combination” includes a merger, a transfer of 10% or more of the corporation’s assets, the issuance or transfer of stock equal to 5% or more of the aggregate market value of all of the corporation’s outstanding shares, the adoption of a plan of liquidation or dissolution, or other transaction resulting in a financial benefit to the interested shareholder. The provisions of Section 47-33-17 of the South Dakota Domestic Public Corporation Takeover Act may delay, defer or prevent a change in control of us without the shareholders taking further action.

The South Dakota Domestic Public Corporation Takeover Act further provides that our board, in determining whether to approve a merger or other change of control, may take into account both the long-term as well as short-term interests of us and our shareholders, the effect on our employees, customers, creditors and suppliers, the effect upon the community in which we operate and the effect on the economy of the state and nation. This provision may permit our board to vote against some proposals that, in the absence of this provision, it would otherwise have a fiduciary duty to approve.

### ***Fair Price Provision***

Our articles of incorporation require the affirmative vote of the holders of 80% or more of the outstanding shares of our voting stock to approve any “business transaction” with any “related person” or any “business transaction” in which a “related person” has an interest. However, if a majority of the members of our board who are not affiliated with the related party approve the business transaction, or if the cash or fair market value of any consideration received by our shareholders pursuant to a business transaction meets certain enumerated requirements, then the 80% voting requirement will not be applicable. Generally, our articles of incorporation define a “business transaction” to include a merger, asset or stock sale. Our articles of incorporation generally define a “related person” as any person or entity that, together with its affiliates and associates, beneficially owns 10% or more of our outstanding voting stock. The likely effect of this provision is to delay, defer or prevent a change in control.

### ***Board Composition***

Our articles of incorporation and bylaws provide for a staggered board of directors divided into three classes, with the term of office of one class expiring each year. Our articles of incorporation and bylaws also provide that our directors may be removed only for cause and by the affirmative vote of the majority of the remaining members of the board of directors. The likely effect of our staggered board of directors and the limitation on the removal of directors is an increase in the time required for the shareholders to change the composition of our board of directors.

### ***Authorized but Unissued Shares***

The authorized but unissued shares of our common stock and preferred stock are available for future issuance without shareholder approval. These additional shares may be used for a variety of corporate purposes, including future public offerings to raise additional capital, corporate acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could also render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Our board of directors has no present intention to issue any new series of preferred stock; however, our board has the authority, without further shareholder approval, to issue one or more series of preferred stock that could, depending on the terms of the series, either impede or facilitate the completion of a merger, tender offer or other takeover attempt. Although our board of directors is required to make any determination to issue such stock based on its judgment as to the best interest of our shareholders, our board could act in a manner that would discourage an acquisition attempt or other transaction that some, or a majority, of the shareholders might believe to be in their best interests or in which shareholders might receive a premium for their stock over the then market price of such stock. Our board of directors does not intend to seek shareholder approval prior to any issuance of stock, unless otherwise required by law or the rules of the stock exchange on which our common stock is listed.

### ***Shareholder Action by Written Consent Must Be Unanimous***

South Dakota law provides that any action which may be taken at a meeting of shareholders may be taken without a meeting if a written consent, setting forth the action taken, is signed by all of the shareholders entitled to vote with respect to the action taken. This provision prevents holders of less than all of our common stock from unilaterally using the written consent procedure to take shareholder action.

## **Transfer Agent**

The transfer agent and registrar for our common stock is Wells Fargo Shareowner Services. Its address is P.O. Box 64856, St. Paul, Minnesota 64856-0856, and its telephone number for shareholder services is (800) 468-9716.

## **LEGAL MATTERS**

Steven J. Helmers, our General Counsel and Senior Vice President, has rendered an opinion for us regarding the validity of the securities to be offered by the prospectus. Mr. Helmers owns, directly or indirectly, 19,061 shares of our common stock and holds options to purchase an additional 41,518 shares. Any underwriters will also be advised about the validity of the securities and other legal matters by their own counsel, which will be named in the prospectus supplement.
